

# National Curriculum 2014: Progression Guidance

# National Curriculum 2014: Progression Guidance Introduction

- The guidance in this document has been developed by Durham Education Development Advisers and Subject Specialists.
- It sets out a progression of learning within subjects.
- The Maths, English and Science guidance is based purely on the statutory requirements of the National Curriculum.
- In other subjects, the statutory requirements are supported by additional progression guidance (shown in italics).
- When planning, teachers should also refer to the non-statutory notes and guidance in the National Curriculum document.

	Year 1	Year 2	Year 3/4	Year 5/6
Reading Word Reading	<ul> <li>Pupils should be taught to:         <ul> <li>apply phonic knowledge and skills as the route to decode words</li> </ul> </li> <li>respond speedily with the correct sound to graphemes (letters or groups of letters) for all 40+ phonemes, including, where applicable, alternative sounds for graphemes</li> <li>read accurately by blending sounds in unfamiliar words containing GPCs that have been taught</li> <li>read common exception words, noting unusual correspondences between spelling and sound and where these occur in the word</li> <li>read words containing taught GPCs and -s, -es, -ing, -ed, -er and -est endings</li> <li>read other words of more than one syllable that contain taught GPCs</li> <li>read words with contractions, e.g. I'm, I'll, we'll and understand that the apostrophe represents the omitted letter(s)</li> </ul>	<ul> <li>continue to apply phonic knowledge and skills as the route to decode words until automatic decoding has become embedded and reading is fluent</li> <li>read accurately by blending the sounds in words that contain the graphemes taught so far, especially recognising alternative sounds for graphemes</li> <li>read accurately words of two or more syllables that contain the same graphemes as above</li> <li>read words containing common suffixes</li> <li>read further common exception words, noting unusual correspondences between spelling and sound and where these occur in the word</li> <li>read most words quickly and accurately without overt sounding and blending when they have been frequently encountered</li> </ul>	Pupils should be taught to:  apply their growing knowledge of root words, prefixes and suffixes (etymology and morphology) as listed in English Appendix 1, both to read aloud and to understand the meaning of new words they meet  read further exception words, noting the unusual correspondences between spelling and sound, and where these occur in the word	Pupils should be taught to:  apply their growing knowledge of root words, prefixes and suffixes (morphology and etymology), as listed in English Appendix 1, both to read aloud and to understand the meaning of new words that they meet

		Year 1	Year 2	Year 3/4	Year 5/6
	ord Reading continued and some seading continued	ad aloud accurately books at are consistent with their eveloping phonic knowledge and that do not require them to se other strategies to work out ords  -read these books to build up eir fluency and confidence in ord reading	<ul> <li>read aloud books closely matched to their improving phonic knowledge, sounding out unfamiliar words accurately, automatically and without undue hesitation</li> <li>re-read these books to build up their fluency and confidence in word reading</li> </ul>		
Reading	• de mo an d	evelop pleasure in reading, otivation to read, vocabulary and understanding by: stening to and discussing a side range of poems, stories and non-fiction at a level beyond at at which they can read dependently eing encouraged to link what ey read or hear read to their win experiences ecoming very familiar with key ories, fairy stories and additional tales, retelling them and considering their particular naracteristics ecognising and joining in with redictable phrases	<ul> <li>develop pleasure in reading, motivation to read, vocabulary and understanding by:</li> <li>listening to, discussing and expressing views about a wide</li> </ul>	Pupils should be taught to:  develop positive attitudes to reading and understanding of what they read by:  listening to and discussing a wide range of fiction, poetry, plays, non-fiction and reference books or textbooks  reading books that are structured in different ways and reading for a range of purposes  using dictionaries to check the meaning of words that they have read  increasing their familiarity with a wide range of books, including fairy stories, myths and legends, and retelling some of these orally	<ul> <li>Pupils should be taught to:         <ul> <li>maintain positive attitudes to reading and understanding of what they read by:</li> <li>continuing to read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference books or textbooks</li> <li>reading books that are structured in different ways and reading for a range of purposes</li> <li>increasing their familiarity with a wide range of books, including myths, legends and traditional stories, modern fiction, fiction from our literary heritage, and books from other cultures and traditions</li> </ul> </li> </ul>

			Year 1	Year 2		Year 3/4		Year 5/6
		<b>♦</b>	learning to appreciate rhymes and poems, and to recite some by heart	<ul> <li>being introduced to non-fiction books that are structured in different ways</li> </ul>	<b>♦</b>	identifying themes and conventions in a wide range of books	<b>\rightarrow</b>	recommending books that they have read to their peers, giving reasons for their choices
		<b>♦</b>	discussing word meanings, linking new meanings to those already known	<ul> <li>recognising simple recurring literary language in stories and poetry</li> </ul>	<b>♦</b>	preparing poems and play scripts to read aloud and to perform, showing understanding	<b>♦</b>	identifying and discussing themes and conventions in and across a wide range of writing
			understand both the books they	<ul> <li>discussing and clarifying the meanings of words, linking new</li> </ul>		through intonation, tone, volume and action	<b>♦</b>	making comparisons within and across books
			can already read accurately and fluently and those they listen to by:	<ul><li>meanings to known vocabulary</li><li>discussing their favourite words and phrases</li></ul>	<b>◊</b>	discussing words and phrases that capture the reader's interest and imagination	<b>◊</b>	learning a wider range of poetry by heart
Reading	Comprehension continued	<b>♦</b>	drawing on what they already know or on background information and vocabulary provided by the teacher	•	<b>♦</b>	recognising some different forms of poetry (e.g. free verse, narrative poetry)	♦	preparing poems and plays to read aloud and to perform, showing understanding through intonation, tone and volume so that the meaning is clear to an
Re	Somprehe	<b>♦</b>	checking that the text makes sense to them as they read and correcting inaccurate reading	intonation to make the meaning clear	•	understand what they read, in books they can read independently, by:		audience
		<b>♦</b>	discussing the significance of the title and events	<ul> <li>understand both the books that they can already read</li> </ul>	$\Diamond$	checking that the text makes sense to them, discussing their	•	understand what they read by: checking that the book makes
		<b>♦</b>	making inferences on the basis of what is being said and done	accurately and fluently and those that they listen to by:		understanding and explaining the meaning of words in context		sense to them, discussing their understanding and exploring the meaning of words in context
		<b>♦</b>	predicting what might happen on the basis of what has been read so far	<ul> <li>drawing on what they already know or on background information and vocabulary provided by the teacher</li> </ul>	<b>♦</b>	asking questions to improve their understanding of a text	<b>◊</b>	asking questions to improve their understanding

	Year 1	Year 2	Year 3/4	Year 5/6
Reading Comprehension continued	<ul> <li>participate in discussion about what is read to them, taking turns and listening to what others say</li> <li>explain clearly their understanding of what is read to them</li> </ul>	<ul> <li>♦ checking that the text makes sense to them as they read and correcting inaccurate reading</li> <li>♦ making inferences on the basis of what is being said and done</li> <li>♦ answering and asking questions</li> <li>♦ predicting what might happen on the basis of what has been read so far</li> <li>• participate in discussion about books, poems and other works that are read to them and those that they can read for themselves, taking turns and listening to what others say</li> <li>• explain and discuss their understanding of books, poems and other material, both those that they listen to and those that they read for themselves</li> </ul>	<ul> <li>drawing inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifying inferences with evidence</li> <li>◇ predicting what might happen from details stated and implied</li> <li>◇ identifying main ideas drawn from more than one paragraph and summarising these</li> <li>◇ identifying how language, structure, and presentation contribute to meaning</li> <li>retrieve and record information from non-fiction</li> <li>participate in discussion about both books that are read to them and those they can read for themselves, taking turns and listening to what others say</li> </ul>	<ul> <li>♦ drawing inferences such as inferring characters' feelings, thoughts and motives from their actions, and justifying inferences with evidence</li> <li>♦ predicting what might happen from details stated and implied</li> <li>♦ summarising the main ideas drawn from more than one paragraph, identifying key details that support the main ideas</li> <li>♦ identifying how language, structure and presentation contribute to meaning</li> <li>• discuss and evaluate how authors use language, including figurative language, considering the impact on the reader</li> <li>• distinguish between statements of fact and opinion</li> <li>• retrieve, record and present information from non-fiction</li> </ul>

		Year 1	Year 2	Year 3/4	Year 5/6
Reading	Comprehension continued				<ul> <li>participate in discussions about books that are read to them and those they can read for themselves, building on their own and others' ideas and challenging views courteously</li> <li>explain and discuss their understanding of what they have read, including through formal presentations and debates, maintaining a focus on the topic and using notes where necessary</li> <li>provide reasoned justifications for their views</li> </ul>
Writing	Transcription	Spelling (see English Appendix 1)  Pupils should be taught to:  • spell:  ◊ words containing each of the 40+ phonemes already taught  ◊ common exception words  ◊ the days of the week	Spelling (see English Appendix 1)  Pupils should be taught to:  ■ spell by:  ⇒ segmenting spoken words into phonemes and representing these by graphemes, spelling many correctly	Spelling (see English Appendix 1)  Pupils should be taught to:  use further prefixes and suffixes and understand how to add them (English Appendix 1)  spell further homophones  spell words that are often misspelt (English Appendix 1)	<ul> <li>Spelling (see English Appendix 1)</li> <li>Pupils should be taught to:         <ul> <li>use further prefixes and suffixes and understand the guidance for adding them</li> <li>spell some words with 'silent' letters, e.g. knight, psalm, solemn</li> </ul> </li> <li>continue to distinguish between homophones and other words which are often confused</li> </ul>

	Year 1	Year 2	Year 3/4	Year 5/6
Writing Transcription continued	Pupils should be taught to:  • name the letters of the alphabet:  ◇ naming the letters of the alphabet in order  ◇ using letter names to distinguish between alternative spellings of the same sound  • add prefixes and suffixes:  ◇ using the spelling rule for adding —s or —es as the plural marker for nouns and the third person singular marker for verbs  ◇ using the prefix un—  ◇ using —ing, —ed, —er and —est where no change is needed in the spelling of root words (e.g. helping, helped, helper)  • apply simple spelling rules and guidelines, as listed in English Appendix 1  • write from memory simple sentences dictated by the teacher that include words using the GPCs and common exception words taught so far	<ul> <li>♦ learning new ways of spelling phonemes for which one or more spellings are already known, and learn some words with each spelling, including a few common homophones</li> <li>♦ learning to spell common exception words</li> <li>♦ learning to spell more words with contracted forms</li> <li>♦ learning the possessive apostrophe (singular) [for example, the girl's book]</li> <li>♦ distinguishing between homophones and near-homophones</li> <li>■ add suffixes to spell longer words, e.g. —ment, —ness, —ful, —less, —ly</li> <li>■ apply spelling rules and guidelines, listed in Appendix 1</li> <li>■ write from memory simple sentences dictated by the teacher that include words using GPCs, common exception words and punctuation taught so far</li> </ul>	<ul> <li>place the possessive apostrophe accurately in words with regular plurals [for example, girls', boys'] and in words with irregular plurals [for example, children's]</li> <li>use the first two or three letters of a word to check its spelling in a dictionary</li> <li>write from memory simple sentences, dictated by the teacher, that include words and punctuation taught so far</li> </ul>	<ul> <li>use knowledge of morphology and etymology in spelling and understand that the spelling of some words needs to be learnt specifically, as listed in English Appendix 1</li> <li>use dictionaries to check the spelling and meaning of words</li> <li>use the first three or four letters of a word to check spelling, meaning or both of these in a dictionary</li> <li>use a thesaurus</li> </ul>

		Year 1	Year 2	Year 3/4	Year 5/6
Writing	Handwriting	<ul> <li>sit correctly at a table, holding a pencil comfortably and correctly</li> <li>begin to form lower-case letters in the correct direction, starting and finishing in the right place</li> <li>form capital letters</li> <li>form digits 0-9</li> <li>understand which letters belong to which handwriting 'families' (i.e. letters that are formed in similar ways) and to practise these</li> </ul>	<ul> <li>form lower-case letters of the correct size relative to one another</li> <li>start using some of the diagonal and horizontal strokes needed to join letters and understand which letters, when adjacent to one another, are best left unjoined</li> <li>write capital letters and digits of the correct size, orientation and relationship to one another and to lower case letters</li> <li>use spacing between words that reflects the size of the letters</li> </ul>	<ul> <li>use the diagonal and horizontal strokes that are needed to join letters and understand which letters, when adjacent to one another, are best left unjoined</li> <li>increase the legibility, consistency and quality of their handwriting, e.g. by ensuring that the downstrokes of letters are parallel and equidistant; that lines of writing are spaced sufficiently so that the ascenders and descenders of letters do not touch</li> </ul>	<ul> <li>write legibly, fluently and with increasing speed by:</li> <li>choosing which shape of a letter to use when given choices and deciding, as part of their personal style, whether or not to join specific letters</li> <li>choosing the writing implement that is best suited for a task</li> </ul>
^	Composition	Pupils should be taught to:  ■ write sentences by:  ⇒ saying out loud what they are going to write about  ⇒ composing a sentence orally before writing it  ⇒ sequencing sentences to form short narratives  ⇒ re-reading what they have written to check that it makes sense	Pupils should be taught to:      develop positive attitudes towards and stamina for writing by:      writing narratives about personal experiences and those of others (real and fictional)      writing about real events      writing poetry      writing for different purposes	Pupils should be taught to:  • plan their writing by:  ◇ discussing writing similar to that which they are planning to write in order to understand and learn from its structure, vocabulary and grammar  ◇ discussing and recording ideas	Pupils should be taught to:  • plan their writing by:  ◇ identifying the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own  ◇ noting and developing initial ideas, drawing on reading and research where necessary

	Year 1	Year 2	Year 3/4	Year 5/6
Writing Composition continued		<ul> <li>consider what they are going to write before beginning by:</li> <li>planning or saying out loud what they are going to write about</li> <li>writing down ideas and/or key words, including new vocabulary</li> <li>encapsulating what they want to say, sentence by sentence</li> <li>make simple additions, revisions and corrections to their own writing by:</li> <li>evaluating their writing with the teacher and other pupils</li> <li>re-reading to check that their writing makes sense and that verbs to indicate time are used correctly and consistently, including verbs in the continuous form</li> <li>proof-reading to check for errors in spelling, grammar and punctuation (e.g. ends of sentences punctuated correctly)</li> <li>read aloud what they have written with appropriate intonation to make the meaning clear</li> </ul>	<ul> <li>draft and write by:</li> <li>composing and rehearsing sentences orally (including dialogue), progressively building a varied and rich vocabulary and an increasing range of sentence structures (See English Appendix 2)</li> <li>organising paragraphs around a theme</li> <li>in narratives, creating settings, characters and plot</li> <li>in non-narrative material, using simple organisational devices (for examples headings and sub-headings)</li> <li>evaluate and edit by:</li> <li>assessing the effectiveness of their own and others' writing and suggesting improvements</li> <li>proposing changes to grammar and vocabulary to improve consistency, including the accurate use of pronouns in sentences</li> </ul>	<ul> <li>in writing narratives, considering how authors have developed characters and settings in what they have read, listened to or seen performed</li> <li>draft and write by:</li> <li>selecting appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning</li> <li>in narratives, describing settings, characters and atmosphere and integrating dialogue to convey character and advance the action</li> <li>précising longer passages</li> <li>using a wide range of devices to build cohesion within and across paragraphs</li> <li>using further organisational and presentational devices to structure text and to guide the reader (e.g. headings, bullet points, underlining)</li> </ul>

	Year 1	Year 2	Year 3/4	Year 5/6
Writing	Composition continued		<ul> <li>proof-read for spelling and punctuation errors</li> <li>read aloud their own writing, to a group or the whole class, using appropriate intonation and controlling the tone and volume so that the meaning is clear</li> </ul>	<ul> <li>evaluate and edit by:</li> <li>assessing the effectiveness of their own and others' writing</li> <li>proposing changes to vocabulary, grammar and punctuation to enhance effects and clarify meaning</li> <li>ensuring the consistent and correct use of tense throughout a piece of writing</li> <li>ensuring correct subject and verb agreement when using singular and plural, distinguishing between the language of speech and writing</li> </ul>
	Compo			<ul> <li>and choosing the appropriate register</li> <li>proof-read for spelling and punctuation errors</li> <li>◇ perform their own compositions, using appropriate intonation, volume, and movement so that meaning is clear</li> </ul>

# National Curriculum 2014: Progression in Speaking & Listening

		Yr 1/2	Yr 3/4	Yr 5/6
Statutory Requirements	Pupils should be taught to:	For Instance :	For Instance :	For Instance :
	listen and respond appropriately to adults and their peers	Listen and respond to the speaker making simple comments and suggestions  Make helpful contributions when speaking in turns, in pairs and in small groups	Respond to a speaker's main ideas, develop- ing them through comments and sugges- tions. Build on ideas shared Work in a variety of group situations follow- ing appropriate etiquette for group dynamics	Show a clear understanding of the main points of a conversation / discussion. Be able to articulate and develop the speaker's ideas in different ways. Make reference to others comments when articulating own ideas  Participate in collaborative work taking on board the ideas of others and adapting these to meet the needs of the group
atı	Pupils should be taught to:	For Instance :	For Instance :	For Instance :
Language St	<ul> <li>ask relevant questions to extend their understanding and knowledge</li> </ul>	Begin to ask questions that link clearly to the topic being discussed  Show that the conversation is being followed through the questions that are asked	Generate questions to ask a specific speaker / audience in response to a talk / conversation  Ask questions in direct response to something heard / presented	Spontaneously ask questions which develop the conversation and take ideas or knowledge further
Z Z	Pupils should be taught to:	For Instance :	For Instance :	For Instance :
Curriculum Spoken	use relevant strategies to build their vocabulary	To be encouraged to listen to and use new vocabulary to develop their own vocabularies  Given opportunities to use this vocabulary in a variety of meaningful contexts  To be encouraged to think of alternatives for simple vocabulary choices	To be encouraged to develop their individual vocabulary using words they hear and see in their reading and across curriculum subjects  To use new vocabulary within the correct context  Can discuss a wider range of topics which are perhaps unfamiliar to own direct experience.	Using vocabulary appropriately and for effect Use appropriate terminology linked to other curriculum subjects Can talk about abstract concepts using a rich and varied vocabulary to articulate ideas and emotions
nal	Pupils should be taught to:	For Instance :	For Instance :	For Instance :
National	<ul> <li>articulate and justify answers, arguments and opinions</li> </ul>	Can answer questions clearly in sentences  Can give a reason for their answer when asked  Are encouraged to explore why they have certain thoughts or opinions	Can give answers to questions that are supported by justifiable reasons  Can support own ideas and opinions with explanation	Can sustain and argument an follow a train of thought, returning to main ideas throughout the course of the conversation  Can present ideas / opinions coherently , supported with reasons

# National Curriculum 2014: Progression in Speaking & Listening

	Yr 1/2	Yr 3/4	Yr 5/6
Pupils should be taught to:	For Instance :	For Instance :	For Instance :
<ul> <li>give well-structured descriptions, explanations and narratives for</li> </ul>	Being able to describe their immediate world and environment	Can develop ideas and feelings through sustained talk	Can talk about feelings ,thought sand ideas with some detail to make meaning explicit
different purposes, including for expressing feelings	Can talk about themselves clearly and confidently	Can organise what they want to say so that it is clear to the listener	Can present information clearly and in an appropriate form to the listener
	Can retell simple stories / recounts	Can give descriptions. Recall events / sto- ries / recount experiences with some added detail to engage the listener	Can plan and present information verbally selecting the appropriate format and style to match the purpose
			Can sustain a longer conversation about a given topic
Pupils should be taught to:	For Instance :	For Instance :	For Instance :
<ul> <li>maintain attention and partici- pate actively in collaborative con- versations, staying on topic and initiating and responding to com- ments</li> </ul>	Can remain focused on a conversation when not directly involved and are able to recall the main points when questioned	Can show through the contributions made and questions asked that they have followed a conversation	Can summarise another person's contribution to a discussion adding their own interpretation / opinion based on what has been heard
Pupils should be taught to:	For Instance :	For Instance :	For Instance :
<ul> <li>use spoken language to develop understanding through speculat-</li> </ul>	Begin to offer ideas and suggestions based on what has been heard - for example in	Develop ideas and expand on these building on what others say	Offer ideas and support these with reason- ing. Be prepared to change these as new
ing, hypothesising, imagining and exploring ideas	response to reading watching an experiment	Adapt these ideas in light of new information	information comes to light and make reference back to original thoughts providing either further evidence to support ideas or reasons for the change of focus
Pupils should be taught to:	For Instance :	For Instance :	For Instance :
<ul> <li>speak audibly and fluently with an increasing command of Stand-</li> </ul>	Can speak clearly when talking in class. Speak in grammatically correct sentences	Can speak to a wider audience e.g whole school in assembly	Can articulate thoughts clearly when presenting to a range of audiences
ard English		Can adapt speaking style to suit the audi- ence	Can adopt a formal / informal tone as appro priate to the situation

# National Curriculum 2014: Progression in Speaking & Listening

	Yr 1/2	Yr 3/4	Yr 5/6
Pupils should be taught to:  • participate in discussions, presentations, performances, role play, improvisations and debates	For Instance:  Know when it is their turn to speak in a simple presentation / discussion  Take part in role play to find out about different characters and situations  Take different roles in a drama / role play to explore how others felt about a character's actions	For Instance:  Prepare and present information orally  Participate in discussions by listening to others and building on from what has been said  Participate in drama, improvisation and role play activities—showing an understanding of a character by choice of vocabulary to indicate feelings and emotions	For Instance:  Can present information in a variety of ways to a range of audiences  Take an active role in discussions - taking or specific roles and taking responsibility to ensure that a discussion remains focused  Perform to wider audiences combining words, gestures and movement  Participate in debates, following appropriate etiquette, and conventions
Pupils should be taught to:  • gain, maintain and monitor the interest of the listener (s)	For Instance:  Speak clearly so that the listener can hear what is said  Organising thoughts into sentences before expressing them  Choosing words to add interest or detail	For Instance:  Adapt language, tone and style to suit the purpose of the listener  Planning talk / presentations carefully to ensure they fulfil the purpose and suit the needs of the listener	For Instance:  Be aware of the listener and adapt talk to maintain the listener's interest  Express and explain relevant ideas with some elaboration to make meaning explicit  Maintain control and effective organisation of a talk to guide the listener  Adapt vocabulary, grammar and non verbal features to maintain listener's interest
Pupils should be taught to:  • consider and evaluate different viewpoints, attending to and building on the contributions of others	For Instance :  Know that different people have different ideas / responses and recognise that these are as valuable as their own	For Instance :  Take account of the viewpoints of others when building own arguments and offering responses	For Instance:  Make reference to the viewpoints of others providing supporting evidence or counterbalancing these with their own opinions
Pupils should be taught to:  • select and use appropriate registers for effective communication.	For Instance :  Notice how different speakers talk and consider why this might be the case	For Instance:  Begin to adapt suitable styles of delivery dependent on task / audience  Recognise how language choices vary in different situations	For Instance :  Explain how language use varies in different situations. Reflect this understanding in the choices made for delivering talk

	Words	Phonics	Rules and Conventions	Affixes and Roots	Word Origins	Grammar
Year 1	Children should be taught to spell:  common exception words (CEW)  high frequency words (HFW) - the first 100 from Letters and Sounds (pg 193)  compound words e.g. football, laptop, playground  Plus:  days of the week  numbers to 20	Children should be taught to spell:  VC words  CVC words with short vowels  CVC words with long vowels  words with adjacent consonants  words with consonant digraphs and some vowel digraphs/trigraphs  alternative spellings for vowel phonemes e.g /ai/, /ay/, /a-e/  new consonant spellings 'ph' and 'wh' e.g. dolphin, alphabet, which, wheel,  words ending in -y e.g. very, happy, funny	Children should be taught to spell:  words ending 'ff', 'Il', 'ss', 'zz' and 'ck' (Usually after a short vowel letter in short words)  the /ng/ sound spelt n before k  words ending in 'tch' (/ch/ sound after a short vowel is usually 'tch')  plurals of nouns adding -s and -es to words  verbs where no change is needed to the root word:  adding endings -ing, -ed, -er  adjectives where no change is needed to the root word:  adding -eand -est	Children should be taught to spell:  • words with the addition of the prefix un-		

	Words	Phonics	Rules and Conventions	Affixes and Roots	Word Origins	Grammar
Year 2	Children should be taught to spell:  common exception words (CEW)  high frequency words (HFW) - the first 200 from Letters and Sounds (pg 195)	Children should be taught to spell:  • homophones and near homophones e.g. there/their/ they're, hear/here, see/ sea  • words with alternative pronunciations from Letters and Sounds Phase 5	Children should be taught to spell:  words with the /j/ sound spelt as 'ge' and 'dge' (end of words) and 'g' (elsewhere in words)  words with the /s/ sound spelt 'c' before 'e', 'i', 'y'  words ending -le, -el, -al and - il  adding -ies to nouns and verbs ending in 'y'  adding -ed, -ing, -er, -est to a root word ending in 'y' with a consonant before it  adding -ing, -ed, -er, -est, -y to words ending in 'e' with a consonant before it  adding -ing, -ed, -er, -est and -y to words of one syllable ending in a single letter after a short vowel	Children should be taught to spell:  • words with the suffixes -ment, -ness, -ful, -less and -ly  • words ending in -tion	Children should be taught to spell:  words with the /n/ sound spelt 'kn' and (less often) 'gn' at the beginning of words  words with the /r/ sound spelt 'wr' at the beginning of words  words	Children should be taught to spell:  • words with contractions e.g. can't, didn't  • words using the possessive apostrophe (singular nouns) e.g. the man's, Claire's

	Words	Phonics	Rules and Conventions	Affixes and Roots	Word Origins	Grammar
Year 3/4	Children should be taught to spell:  • words from the National Curriculum word list for Years 3 and 4 (pg 64)	Children should be taught to spell:  the /i/ sound spelt 'y' elsewhere than at the end of words e.g. myth, pyramid, gym  words with the /ai/ sound spelt 'ei', 'eigh', or 'ey' e.g. vein, eight  words containing the /u/ sound spelt 'ou' e.g. double, trouble  homophones and near homophones e.g. affect/ effect, berry/bury, fair/ fare, male/mail	Children should be taught to spell:	Children should be taught to spell:  adding suffixes beginning with vowel letters to words of more than one syllable (words ending with a single consonant preceded by a short vowel double the consonant before adding 'ing')  words using prefixes: un-,dis-, mis-, in-, im-, il-, ir-, re-, sub-, inter-, super-, anti-, auto-  words using suffixes: -ly, -ation, -ous  words with endings sounding / shun/: -tion, -sion, -sion, -cian  words ending with the schwa sound: measure, creature	Children should be taught to spell:  Words with the /k/ sound spelt 'ch' (Greek in origin) e.g. scheme, chemist  words with the /sh/ sound spelt 'ch' (mostly French in origin) e.g. chef, machine  words ending with the /g/ sound spelt -gue and the /k/ sound spelt -que (French in origin) e.g. league, unique  words with the /s/ sound spelt 'sc' (Latin in origin) e.g. science, scene	Children should be taught to spell:  Possessive apostrophe with plural words e.g. girls' boys' babies' children's

	Words	Phonics	Rules and Conventions	Affixes and Roots	Word Origins	Grammar
Year 5/6	Children should be taught to spell:  • words from the National Curriculum word list for Years 5 and 6 (pg 71)	Children should be taught to spell:  • words containing the letter-string 'ough' e.g. bought, rough, cough, through, although, thorough, plough  • homophones and other words that are often confused e.g. practise/ practice, advise/ advice, past/ passed	Children should be taught to spell:  • words with the /ee/ sound spelt 'ei' after 'c' e.g. receive, receipt, ceiling plus exceptions protein and seize	Children should be taught to spell:  words with the ending /shus/ spelt -cious or -tious  words with the ending /shul/ spelt -cial or -tial  words with the endings -ant, -ance/-ancy, -ent, -ence/-ency  words ending in -able and -ible  words ending in -ably and -ibly  adding suffixes beginning with vowel letters to words ending in -fer (The 'r' is doubled if the -fer is still stressed when the ending is added. The 'r' is not doubled if the -fer is no longer stressed)	Children should be taught to spell:  • words with silent letters (i.e. letters whose presence cannot be predicted from the pronunciation of the word) e.g. doubt, island, lamb	Children should be taught to spell:  • words using a hyphen to link a prefix to a root word e.g. co-ordinate, re-iterate, co-own

	Word Structure	Sentence Structure	Text Structure	Punctuation	Terminology
Year 1	Content to be introduced:  regular plural noun suffixes -s or -es (e.g. dog, dogs; wish, wishes)  suffixes that can be added to verbs (e.g. helping, helped, helper)  how the prefix unchanges the meaning of verbs and adjectives (negation, e.g. unkind, or undoing, e.g. untie the boat)	Content to be introduced:  how words can combine to make sentences  joining words and joining clauses using and	Content to be introduced:  • sequencing sentences to form short narratives	Content to be introduced:  separation of words with spaces  introduction to the use of capital letters, full stops, question marks and exclamation marks to demarcate sentences  capital letters for names of people, places, days of the week and for the personal pronoun I	Terminology to be introduced:  word  sentence  letter  capital letter  full stop  punctuation  singular  plural  question mark  exclamation mark

Word Structure	Sentence Structure	Text Structure	Punctuation	Terminology
using suffixes such as -ness, -er  compound nouns  formation of adjectives using suffixes such as -ful, -less (A fuller list of suffixes can be found in the spelling appendix)  use of the suffixes -er	<ul> <li>subordination (using when, if, that, because) and co-ordination (using or, and, or but)</li> <li>expanded noun phrases for description and specification (e.g. the blue butterfly, plain flour, the man in the moon)</li> <li>sentences with different forms: statement, question, exclamation, command</li> </ul>	<ul> <li>the consistent use of present tense versus past tense throughout texts</li> <li>use of the continuous/ progressive form of verbs in the present and past tense to mark actions in progress (e.g. she is drumming, he was shouting)</li> </ul>	<ul> <li>capital letters, full stops, question marks and exclamation marks to demarcate sentences</li> <li>commas to separate items in a list</li> <li>apostrophes to mark contracted forms in spelling</li> <li>apostrophes to mark singular possessions in nouns</li> </ul>	Terminology to be introduced:  verb  tense (past, present)  adjective  noun  noun phrase  adverb  statement  question  exclamation  command  apostrophe  compound  suffix

Wor	d Structure	Sentence Structure	Text Structure	Punctuation	Terminology
formusing prefix super su	be introduced: ation of nouns g a range of xes, such as er-, anti-, auto- of the forms a or an ording to whether next word begins a consonant or a el (e.g. a rock, an n box) d families based on mon words	Content to be introduced:  • expressing time, place and cause using:  ◇ conjunctions (e.g. when, before, after, while, so, because)  ◇ adverbs (e.g. then, next, soon, therefore)  ◇ or prepositions (e.g. before, after, during, in, because of)	<ul> <li>introduction to paragraphs as a way to group related material</li> <li>headings and sub-headings to aid presentation</li> <li>use of the present perfect form of verbs instead of the simple past (e.g. he has gone out to play contrasted with he went out to play)</li> </ul>	Content to be introduced:  • introduction to inverted commas to punctuate direct speech	Terminology to be introduced:  word family  conjunction  adverb  preposition  direct speech  inverted commas (or speech marks)  prefix  consonant  vowel  clause  subordinate clause

	Word Structure	Sentence Structure	Text Structure	Punctuation	Terminology
Year 4	Content to be introduced:  the grammatical difference between plural and possessive —s  standard English forms for verb inflections instead of local spoken forms (e.g. we were instead of we was, or I did instead of I done)	Content to be introduced:  fronted adverbials  use of commas after fronted adverbials (e.g. Later that day, I heard the bad news)  noun phrases expanded by the addition of modifying adjectives, nouns and preposition phrases (e.g. the teacher expanded to the strict maths teacher with curly hair)	Content to be introduced:  use of paragraphs to organise ideas around a theme  appropriate choice of pronoun or noun within and across sentences to aid cohesion and avoid repetition	Content to be introduced:  use of inverted commas and other punctuation to indicate direct speech (e.g. a comma after the reporting clause; end punctuation within inverted commas. The conductor shouted, "Sit down!")  apostrophes to mark singular and plural possession (e.g. the girl's name, the girls' names)	Terminology to be introduced:

	Word Structure	Sentence Structure	Text Structure	Punctuation	Terminology
Year 5	Content to be introduced:  converting nouns or adjectives into verbs using suffixes (e.gate, -ise, -ify)  verb prefixes (e.g. dis-, de-, mis-, over- and re-)	Content to be introduced:  relative clauses beginning with who, which, where, when, whose, that or an omitted relative pronoun  indicating degrees of possibility using modal verbs (e.g. might, should, will, must)  indicating degrees of possibility using adverbs (e.g. perhaps, surely)	Content to be introduced:  devices to build cohesion within a paragraph (e.g. then, after that, this, firstly)  linking ideas across paragraphs using adverbials of time (e.g. later), place (e.g. nearby) and number (e.g. secondly) or tense choices (e.g. he had seen her before)	Content to be introduced:  brackets, dashes or commas to indicate parenthesis  use of commas to clarify meaning or avoid ambiguity	Terminology to be introduced:  relative clause  modal verb  relative pronoun  parenthesis  bracket  dash  cohesion  ambiguity

	Word Structure	Sentence Structure	Text Structure	Punctuation	Terminology
Year 6	the difference between vocabulary typical of informal speech and vocabulary appropriate for formal speech and writing (e.g. said - reported, alleged, or claimed, find out – discover, ask for – request, go – enter)      how words are related by meaning as synonyms and antonyms (e.g. big, large, little)	<ul> <li>use of the passive voice to affect the presentation of information in a sentence [e.g. I broke the window in the greenhouse,' versus 'The window in the greenhouse was broken (by me)].</li> <li>the difference between structures typical of informal speech and structures appropriate for formal speech and writing (such as the use of question tags, e.g. He's your friend, isn't he? or the use of the subjunctive forms such as If I were or were they to come in some very formal writing and speech)</li> </ul>	<ul> <li>linking ideas across paragraphs using a wider range of cohesive devices (e.g. repetition of a word or phrase, grammatical connections (e.g. the use of adverbials such as on the other hand, in contrast, or as a consequence), and ellipsis</li> <li>layout devices, such as headings, sub-headings, columns, bullets, or tables, to structure text</li> </ul>	Content to be introduced:  use of the semi-colon, colon and dash to mark the boundary between independent clauses (e.g. It's raining; I'm fed up)  use of the colon to introduce a list and use of semi-colons within lists  punctuation of bullet points to list information  how hyphens can be used to avoid ambiguity (e.g. man eating shark versus man-eating shark, or recover versus re-cover)	Terminology to be introduced:      active and passive voice     subject and object     hyphen     synonym     antonym     colon     bullet points     ellipsis

	Year 1	Year 2	Year 3
Number and Place Value	Pupils should be taught to:  count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number  count, read and write numbers to 100 in numerals, count in different multiples including ones, twos, fives and tens  given a number, identify one more and one less  identify and represent numbers using concrete objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least  read and write numbers 1 to 20 in numerals and words	Pupils should be taught to:  count in steps of 2, 3, and 5 from 0, and count in tens from any number, forward or backward  recognise the value of each digit in a two digit number (tens, ones)  identify, represent and estimate numbers using different representation, including the number line  compare and order numbers from 0 up to 100; use <, > and = signs  read and write numbers to at least 100 in numerals and in words  use place value and number facts to solve problems	Pupils should be taught to:  count from 0 in multiples of 4, 8, 50 and 100; finding 10 or 100 more than a given number

	Year 1	Year 2	Year 3
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	<ul> <li>read, write and interpret mathematical statements involving addition (+), subtraction (-), and equals (=) signs</li> <li>represent and use number bonds and related subtraction facts within 20</li> </ul>	<ul> <li>solve simple one-step problems with addition and subtraction:</li> </ul>	add and subtract numbers mentally, including:
		using concrete objects and pictorial	a three-digit number and ones
		representations, including those involving numbers, quantities and measures	a three-digit number and tens
	add and subtract one-digit and two-digit	applying their increasing knowledge of mental	♦ a three-digit number and hundreds
Addition and Subtraction	numbers to 20,including zero  solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 =□ - 9	and written methods	<ul> <li>add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction</li> <li>estimate the answer to a calculation and use inverse operations to check answers</li> <li>solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction</li> </ul>

	Year 1	Year 2	Year 3
Multiplication and Division	Pupils should be taught to:  solve one step problems involving multiplication and division, calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher	<ul> <li>Pupils should be taught to:         <ul> <li>recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers</li> </ul> </li> <li>calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) signs</li> <li>show that multiplications of two numbers can be done in any order (commutative) and division of one number by another cannot</li> <li>solve problems involving multiplication and division, using materials arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts</li> </ul>	<ul> <li>Pupils should be taught to:         <ul> <li>recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables</li> </ul> </li> <li>write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including two-digit numbers times one-digit numbers, using mental and progressing to formal written methods</li> <li>solve problems, including missing number problems, involving multiplication and division, including integer scaling problems and correspondence problems in which n objects are connected to m objects</li> </ul>

	Year 1	Year 2	Year 3
P	upils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
Measures  • • • • • • • • • • • • • • • • • • •	compare, describe and solve practical problems for:  lengths and heights (e.g. long/short, longer/shorter, tall/short, double/half)  mass or weight (e.g. heavy/light, heavier than, lighter than)  capacity/volume (e.g. full/empty, more than, less than, half, half full, quarter)  time (e.g. quicker, slower, earlier, later)  Measure and begin to record the following: lengths and heights  mass/weight	<ul> <li>choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels</li> <li>compare and order lengths, mass, volume/capacity and record the results using &lt;, &gt; and =</li> <li>recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value</li> <li>find different combinations of coins that equal the same amounts of money</li> <li>solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change</li> <li>compare and sequence intervals of time</li> <li>tell and write time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times</li> <li>know the number of minutes in an hour and the number of hours in a day</li> </ul>	

		Year 1	Year 2	Year 3
		Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	Shape	<ul> <li>recognise and name common 2-D and 3-D shapes, including:</li> <li>2-D shapes (e.g. rectangles (including squares), circles and triangles)</li> </ul>	<ul> <li>identify and describe the properties of 2-D shapes, including the number of sides and symmetry in a vertical line</li> <li>identify and describe the properties of 3-D</li> </ul>	<ul> <li>draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations; and describe them with increasing accuracy</li> </ul>
	of	<ul> <li>3-D shapes (e.g. cuboids (including cubes), pyramids and spheres)</li> </ul>	shapes, including the number of edges, vertices and faces	recognise angles as a property of shape and associate angles with turning
2	Properties		identify 2-D shapes on the surface of 3-D shapes, for example a circle on a cylinder and a triangle on a pyramid	identify right angles, recognise that two right angles make a half-turn, three make three-quarters of a turn and four a complete turn;
Geometry	-		compare and sort common 2-D and 3-D shapes and everyday objects	identify whether angles are greater than or less than a right angle
9				Identify horizontal and vertical lines and pairs of perpendicular and parallel lines
	Motion	<ul> <li>describe position, directions and movements, including half, quarter and three-quarter turns</li> </ul>	order and arrange combinations of mathematical objects in patterns	
	Position, Direction, Motion		use mathematical vocabulary to describe position, direction and movement, including distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise/anti-clockwise)	
			interpret and construct simple pictograms, tally charts, block diagrams and simple tables	interpret and present data using bar charts, pictograms and tables
	Statistics		ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity	solve one-step and two-step questions such as 'How many more?' and 'How many fewer?' using information presented in scaled bar
	-0,		ask and answer questions about totalling and compare categorical data	charts and pictograms and tables

	Year 4	Year 5	Year 6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	• count in multiples of 6, 7, 9, 25 and 100	read, write, order and compare numbers to at	·
	find 1000 more or less than a given number	least 1 000 000 and determine the value of each digit	to 10 000 000 and determine the value of each digit
	<ul> <li>count backwards through zero to include negative numbers</li> </ul>	<ul> <li>count forwards or backwards in steps of powers of 10 for any given number up to</li> </ul>	round any whole number to a required degree     of accuracy
	<ul> <li>recognise the place value of each digit in a four-digit number (thousands, hundreds, tens</li> </ul>	<ul><li>1 000 000</li><li>interpret negative numbers in context, count</li></ul>	use negative numbers in context, and calculate intervals across zero
	and ones)	forwards and backwards with positive and	solve number problems and practical
en <u>I</u> ne	order and compare numbers beyond 1000	negative whole numbers through zero	problems that involve all of the above
ce Va	<ul> <li>identify, represent and estimate numbers using different representations</li> </ul>	<ul> <li>round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100 000</li> </ul>	
nd Plac	<ul> <li>round any number to the nearest 10, 100 or 1000</li> </ul>	<ul> <li>solve number problems and practical problems that involve all of the above</li> </ul>	
Number and Place Value	<ul> <li>solve number and practical problems that involve all of the above and with increasingly large positive numbers</li> </ul>	<ul> <li>read Roman numerals to 1000 (M) and recognise years written in Roman numerals</li> </ul>	
Z	<ul> <li>read Roman numerals to 100 (I to C) and understand how, over time, the numeral system changed to include the concept of zero and place value</li> </ul>		

	Year 4	Year 5	Year 6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	<ul> <li>add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and subtraction where appropriate</li> </ul>	<ul> <li>add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction)</li> </ul>	<ul> <li>solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why</li> </ul>
	estimate and use inverse operations to check answers to a calculation	add and subtract numbers mentally with increasingly large numbers	
	<ul> <li>solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why</li> </ul>	<ul> <li>use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy</li> </ul>	
Addition and Subtraction		solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	

	Year 4	Year 5	Year 6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	recall multiplication and division facts for multiplication tables up to 12 x 12	<ul> <li>identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.</li> </ul>	<ul> <li>multiply multi-digit numbers up to 4 digits by a two-digit whole number using the efficient written method of long multiplication</li> </ul>
	<ul> <li>use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers</li> </ul>	<ul> <li>know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</li> <li>establish whether a number up to 100 is prime and recall prime numbers up to 19</li> </ul>	divide numbers up to 4 digits by a two-digit     whole number using the formal written method     of long division, and interpret remainders as     whole number remainders, fractions, or by
E	<ul> <li>recognise and use factor pairs and commutatively in mental calculations</li> <li>multiply two-digit and three-digit numbers by</li> </ul>	<ul> <li>multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers</li> </ul>	rounding, as appropriate for the context  divide numbers up to 4 digits by a two-digit
Multiplication and Division	<ul> <li>a one-digit number using formal written layout</li> <li>solve problems involving multiplying and</li> </ul>	multiplication for two-digit flumbers     multiply and divide numbers mentally drawing upon known facts	number using the formal written method of short division where appropriate, interpreting remainders according to context
ion and	adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as which n objects are connected to m objects	<ul> <li>divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</li> </ul>	<ul> <li>perform mental calculations, including with mixed operations and large numbers</li> <li>identify common factors, common multiples and</li> </ul>
licat		<ul> <li>multiply and divide whole numbers and those Involving decimals by 10, 100 and 1000</li> </ul>	<ul> <li>identify common factors, common multiples and prime numbers</li> </ul>
Multip		<ul> <li>recognise and use square numbers and cube numbers, and the notations, (²) (³)</li> </ul>	<ul> <li>using their knowledge of the order of operations to carry out calculations involving the four operations</li> </ul>
		<ul> <li>solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes</li> </ul>	solve problems involving addition, subtraction, multiplication and division
		<ul> <li>solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign</li> </ul>	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy
@ EDC 20		<ul> <li>solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates</li> </ul>	

	Year 4	Year 5	Year 6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	recognise and show, using diagrams, families of common equivalent fractions	compare and order fractions whose denominators are all multiples of the same number	common multiples to express fractions in the same
	<ul> <li>count up and down in hundredths; recognise that hundredths arise when dividing an object</li> </ul>	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	<ul> <li>denomination</li> <li>compare and order fractions including fractions &gt;1</li> </ul>
tages)	<ul><li>by a hundred and dividing tenths by ten</li><li>solve problems involving increasingly harder</li></ul>	recognise mixed numbers and improper fractions and convert from one to the other and write mathematical	add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions
Percentages)	fractions to calculate quantities, including non -unit fractions where the answer is a whole number	statements >1 as a mixed number  (e.g. $^2/_5 + ^4/_5 = ^6/_5 = 1 ^1/_5$ )  add and subtract fractions with the same denominator	<ul> <li>multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. ½ x ½ = ½)</li> </ul>
and	add and subtract fractions with the same denominator	and denominators that are multiples of the same number  multiply proper fractions and mixed numbers by whole	• divide proper fractions by whole numbers (e.g. $^{1}/_{3} \div 2 = ^{1}/_{6}$ )
Decimals	<ul> <li>recognise and write decimal equivalents of any number of tenths or hundredths</li> </ul>	numbers, supported by materials and diagrams  read and write decimal numbers as fractions (e.g. 0.71 = <sup>71</sup> / <sub>100</sub> )	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. <sup>3</sup> / <sub>8</sub> )
	• recognise and write decimal equivalents to $^{1}/_{4}$ ; $^{1}/_{2}$ , $^{3}/_{4}$	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	identify the value of each digit in numbers given to three decimal places and multiply and divide
(Including	find the effect of dividing a one or two-digit number by 10 and 100, identifying the value	round decimals with two decimal places to the nearest whole number and to one decimal place	numbers by 10, 100 and 1000 giving answers up to three decimal places
Fractions (	of the digits in the answer as ones, tenths and hundredths	read, write, order and compare numbers with up to 3 decimal places	multiply one-digit numbers with up to two decimal places by whole numbers
Fract	<ul> <li>round decimals with one decimal place to the nearest whole number</li> </ul>	<ul> <li>solve problems involving numbers up to 3 decimal places</li> <li>recognise the per cent symbol (%) and understand that</li> </ul>	use written division methods in cases where the answer has up to two decimal places
	compare numbers with the same number of decimal places up to two decimal places	per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal	solve problems which require answers to be rounded to specified degrees of accuracy
	<ul> <li>solve simple measures and money problems involving fractions and decimals to two decimal places</li> </ul>	<ul> <li>solve problems which require knowing percentage and decimal equivalents of <sup>1</sup>/<sub>2</sub>, <sup>1</sup>/<sub>4</sub>, <sup>1</sup>/<sub>+</sub>, <sup>2</sup>/<sub>+</sub>, <sup>4</sup>/<sub>+</sub> and those fractions with a denominator of a multiple of 10 or 25</li> </ul>	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts

	Year 4	Year 5	Year 6
			Pupils should be taught to:
rtion			solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts
Ratio and Proportion			solve problems involving the calculation of percentages (e.g of measures, and such as 15% of 360) and the use of percentages for comparison
Ratio			solve problems involving similar shapes where the scale factor is known or can be found
			solve problems involving unequal sharing and grouping using knowledge of fractions and multiples
			Pupils should be taught to:
			use simple formulae
Algebra			generate and describe linear number sequences
			express missing number problems algebraically
			find pairs of numbers that satisfy an equation with two unknowns
			enumerate possibilities of combinations of two variables

	Year 4	Year 5	Year 6
	Pupils should be taught to:  convert between different units of measure (e.g. kilometre to metre; hour to minute)  measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	Pupils should be taught to:  convert between different units of measure (e.g. kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)  understand and use approximate	Pupils should be taught to:  solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate
Measurement	<ul> <li>find the area of rectilinear shapes by counting</li> <li>estimate, compare and calculate different measures, including money in pounds and pence</li> <li>read, write and convert time between analogue and digital 12 and 24-hour clocks</li> <li>solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days</li> </ul>	equivalences between metric units and common imperial units such as inches, pounds and pints  • measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres  • calculate and compare the area of rectangles (including squares) and including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes  • estimate volume (e.g. using 1 cm³ blocks to build cuboids (including cubes)) and capacity (e.g. using water)  • solve problems involving converting between units of time  • use all four operations to solve problems involving measure (for example, length, mass, volume, money) using decimal notation, including scaling	<ul> <li>use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to three decimal places</li> <li>convert between miles and kilometres</li> <li>recognise that shapes with the same areas can have different perimeters and vice versa</li> <li>recognise when it is possible to use formulae for area and volume of shapes</li> <li>calculate the area of parallelograms and triangles</li> <li>calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm³) and cubic metres (m³) and extending to other units (e.g. mm³ and km³)</li> </ul>

	Year 4	Year 5	Year 6
compliance on the onthe onthe onthe complement of the complem	Id be taught to: are and classify geometric shapes, ling quadrilaterals and triangles, based eir properties and sizes fy acute and obtuse angles and are and order angels up to two right s by size fy lines of symmetry in 2-D shapes ented in different orientations lete a simple symmetric figure with ect to a specific line of symmetry	Pupils should be taught to:  identify 3-D shapes, including cubes and cuboids, from 2-D representations  know angles are measured in degrees; estimate and compare acute, obtuse and reflex angles  draw given angles, measuring them in degrees (°)  identify  angles at a point and one whole turn (total 360°)  angles at a point on a straight line and ½ a turn (total 180°)  other multiples of 90°  use the properties of a rectangle to deduce related facts and find missing lengths and angles  distinguish between regular and irregular polygons based on reasoning about equal sides and angles	Pupils should be taught to:  draw 2D shapes using given dimensions and angles  recognise, describe and build simple 3-D shapes, including making nets  compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals and regular polygons  illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the radius  recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles

		Year 4	Year 5	Year 6
Geometry continued	Position, Direction and Motion	<ul> <li>Pupils should be taught to:         <ul> <li>describe positions on a 2-D grid as coordinates in the first quadrant</li> </ul> </li> <li>describe movement between positions as translations of a given unit to the left/right and up/down</li> <li>plot specified points and draw sides to complete a given polygon</li> </ul>	Pupils should be taught to:  identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed	<ul> <li>Pupils should be taught to:</li> <li>describe positions on the full coordinate grid (all four quadrants)</li> <li>draw and translate simple shapes on the coordinate plane, and reflect them in the axes</li> </ul>
	Statistics	<ul> <li>Pupils should be taught to:</li> <li>interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs</li> <li>solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs</li> </ul>	<ul> <li>Pupils should be taught to:</li> <li>solve comparison, sum and difference problems using information presented in a line graph</li> <li>complete, read and interpret information in tables, including timetables</li> </ul>	<ul> <li>Pupils should be taught to:</li> <li>interpret and construct pie charts and line graphs and use these to solve problems</li> <li>calculate and interpret the mean as an average</li> </ul>

		Year 1/2	Year 3/4	Year 5/6
		Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	Asking Questions	ask simple questions and recognise that they can be answered in different ways	<ul> <li>ask relevant questions and use different types of scientific enquiries to answer them</li> <li>set up simple practical enquiries, comparative and</li> </ul>	plan different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary
			fair tests	
	ıg	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	Recordir	<ul><li>observe closely, using simple equipment</li><li>perform simple tests</li></ul>	<ul> <li>make systematic and careful observations and, where appropriate, take accurate measurements using standard units, using a range of equipment,</li> </ul>	take measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate
	and F	<ul> <li>gather and record data to help in answering questions</li> </ul>	including thermometers and data loggers	record data and results of increasing complexity
Scientifically	Measuring and Recording	questions	<ul> <li>record findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables</li> </ul>	using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs
Scient	Me		gather, record, classify and present data in a variety of ways to help in answering questions	
ing		Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
Working		<ul> <li>identify and classify</li> <li>use their observations and ideas to suggest</li> </ul>	<ul> <li>identify differences, similarities or changes related to simple scientific ideas and processes</li> </ul>	identify scientific evidence that has been used to support or refute ideas or arguments
	Concluding	<ul> <li>use their observations and ideas to suggest answers to questions</li> </ul>	<ul> <li>report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions</li> <li>use straightforward scientific evidence to answer</li> </ul>	report and present findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations
			questions or to support their findings	
	ng		Pupils should be taught to:	Pupils should be taught to:
	Evaluating		use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions	use test results to make predictions to set up further comparative and fair tests

	Year 1	Year 2	Year 3
Plants	<ul> <li>Pupils should be taught to:</li> <li>identify and name a variety of common wild and garden plants, including deciduous and evergreen trees</li> <li>identify and describe the basic structure of a variety of common flowering plants, including trees</li> </ul>	<ul> <li>Pupils should be taught to:</li> <li>observe and describe how seeds and bulbs grow into mature plants</li> <li>find out and describe how plants need water, light and a suitable temperature to grow and stay healthy</li> </ul>	<ul> <li>Pupils should be taught to:</li> <li>identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers</li> <li>explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant</li> <li>investigate the way in which water is transported within plants</li> <li>explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal</li> </ul>
Animals, Including Humans	<ul> <li>Pupils should be taught to:         <ul> <li>identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals</li> <li>identify and name a variety of common animals that are carnivores, herbivores and omnivores</li> </ul> </li> <li>describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)</li> <li>identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense</li> </ul>	<ul> <li>Pupils should be taught to:         <ul> <li>notice that animals, including humans, have offspring which grow into adults</li> </ul> </li> <li>find out about and describe the basic needs of animals, including humans, for survival (water, food and air)</li> <li>describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene</li> </ul>	<ul> <li>Pupils should be taught to:</li> <li>identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat</li> <li>identify that humans and some other animals have skeletons and muscles for support, protection and movement</li> </ul>

	Year 1	Year 2	Year 3
		Pupils should be taught to:	
		<ul> <li>explore and compare the difference between things that are living, dead, and things that have never been alive</li> </ul>	
<u>s</u>		identify that most living things live in habitats to which they are suited and describe how different habitats provide the basic needs of different kinds of animals and plants, and how they depend on each other	
ir Habitat		<ul> <li>identify and name a variety of plants and animals in their habitats, including micro-habitats</li> </ul>	
Living Things and their Habitats		describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food	
Livin			

	Year 1	Year 2	Year 3
			Pupils should be taught to:
			recognise that they need light in order to see     things and that the dark is the absence of light
			notice that light is reflected from surfaces
Light			recognise that light from the sun can be dangerous and that there are ways to protect their eyes
			recognise that shadows are formed when the light from a light source is blocked by a solid object
			find patterns in the way that the size of shadows changes
			Pupils should be taught to:
			compare how things move on different surfaces
ets			notice that some forces need contact between two objects, but magnetic forces can act at a distance
Magr			observe how magnets attract or repel each other and attract some materials and not others
Forces and Magnets			compare and group together a variety of everyday materials on the basis on whether they are attracted to a magnet, and identify some magnetic materials
			describe magnets as having two poles
			predict whether two magnets will attract or repel each other, depending on which poles are facing

	Year 1	Year 2	Year 3
Seasonal Change	<ul> <li>Pupils should be taught to:</li> <li>observe changes across the four seasons</li> <li>observe and describe weather associated with the seasons and how day length varies</li> </ul>		
Materials	<ul> <li>Everyday Materials</li> <li>Pupils should be taught to:         <ul> <li>distinguish between an object and the material from which it is made</li> </ul> </li> <li>identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock</li> <li>describe the simple physical properties of a variety of everyday materials</li> <li>compare and group together a variety of everyday materials on the basis of their simple physical properties</li> </ul>	Uses of Everyday Materials  Pupils should be taught to:  identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses  find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching	<ul> <li>Rocks</li> <li>Pupils should be taught to:</li> <li>compare and group together different kinds of rocks on the basis of their appearance and simple physical properties</li> <li>describe in simple terms how fossils are formed when things that have lived are trapped within rock</li> <li>recognise that soils are made from rocks and organic matter</li> </ul>

	Year 4	Year 5	Year 6
S	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
Living Things and their Habitats	<ul> <li>recognise that living things can be grouped in a variety of ways</li> <li>explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</li> <li>recognise that environments can change and that this can sometimes pose dangers to living things</li> </ul>	<ul> <li>describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird</li> <li>describe the life process of reproduction in some plants and animals</li> </ul>	<ul> <li>describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals</li> <li>give reasons for classifying plants and animals based on specific characteristics</li> </ul>
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
Animals, Including Humans	<ul> <li>describe the simple functions of the basic parts of the digestive system in humans</li> <li>identify the different types of teeth in humans and their simple functions</li> <li>construct and interpret a variety of food chains, identifying producers, predators and prey</li> </ul>	describe the changes as humans develop to old age	<ul> <li>identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood</li> <li>recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function</li> <li>describe the ways in which nutrients and water are transported within animals, including humans</li> </ul>

	Year 4	Year 5	Year 6
			Pupils should be taught to:
ritance			<ul> <li>recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago</li> </ul>
and Inhe			recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents
Evolution and Inheritance			identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution
	Pupils should be taught to:		
	compare and group materials together,     according to whether they are solids, liquids     or gases		
States of Matter	observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)		
State	identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature		

	Year 4	Year 5	Year 6
Earth and Space		<ul> <li>Pupils should be taught to:         <ul> <li>describe the movement of the Earth, and other planets, relative to the Sun</li> </ul> </li> <li>describe the movement of the Moon relative to the Earth</li> <li>describe the Sun, Earth and Moon as approximately spherical bodies</li> <li>use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky</li> </ul>	
Forces		<ul> <li>Pupils should be taught to:         <ul> <li>explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object</li> </ul> </li> <li>identify the effects of air resistance, water resistance and friction, that act between moving surfaces</li> <li>recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect</li> </ul>	

	Year 4	Year 5	Year 6
			Pupils should be taught to:
			recognise that light appears to travel in straight lines
Light			use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye
Liç			explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes
			use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them
	Pupils should be taught to:		
	<ul> <li>identify how sounds are made, associating some of them with something vibrating</li> </ul>		
Sound	<ul> <li>recognise that vibrations from sounds travel through a medium to the ear</li> </ul>		
	find patterns between the pitch of a sound and features of the object that produced it		
	<ul> <li>find patterns between the volume of a sound and the strength of the vibrations that produced it</li> </ul>		
	recognise that sounds get fainter as the distance from the sound source increases		

Pupils should be taught to:  • identify common appliances that run on electricity  • construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers  • identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery  • recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit  • recognise some common conductors and
electricity  construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers  identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery  identify whether or not a lamp will light in a simple series circuit and associate this with whether or not a lamp lights in a simple series circuit  recognise some common conductors and
insulators, and associate metals with being good conductors

	Year 4	Year 5	Year 6
		Pupils should be taught to:  compare and group together everyday	
		materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets	
<u>als</u>		<ul> <li>know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution</li> </ul>	
Properties and Changes of Materials		<ul> <li>use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating</li> </ul>	
nd Change		<ul> <li>give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic</li> </ul>	
rties a		<ul> <li>demonstrate that dissolving, mixing and changes of state are reversible changes</li> </ul>	
Prope		<ul> <li>explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda</li> </ul>	

		Year 1/2	Year 3/4	Year 5/6
Techniques		<ul> <li>Pupils should be taught to:</li> <li>use a range of materials creatively to design and make products</li> <li>use drawing, painting and sculpture to develop and share their ideas, experiences and imagination</li> <li>develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space</li> </ul>	Pupils should be taught to:  create sketch books to record their observatio  improve their mastery of art and design technicange of materials (for example, pencil, charce	ques including drawing, painting and sculpture with a
Skills and Tech	Creating Ideas	For instance: Work from observation and known objects Use imagination to form simple images from given starting points or a description Begin to collect ideas in sketchbooks Work with different materials Begin to think what materials best suit the task	For instance:  Develop sketch books  Use a variety of ways to record ideas including digital cameras and iPads  Develop artistic/visual vocabulary to discuss work  Begin to suggest improvements to own work  Experiment with a wider range of materials  Present work in a variety of ways	For instance: Select and develop ideas confidently, using suitable materials confidently Improve quality of sketchbook with mixed media work and annotations Select own images and starting points for work Develop artistic/visual vocabulary when talking about own work and that of others Begin to explore possibilities, using and combining different styles and techniques

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
		Begin to control lines to create simple drawings from observations	Use sketchbooks to record drawings from observation	Use first hand observations using different viewpoints, developing more abstract
	ing	Use thick felt tip pens/chalks/charcoal/wax crayon/ pastel	Experiment with different tones using graded pencils	representations Introduce perspective, fore/back and middle ground
	Drawing / Mark Making	Hold a large paint brush correctly	Include increased detail within work	Investigate proportions
	lark	Make marks using paint with a variety of tools	Draw on a range of scales	Use a range of mediums on a range of
þ	g / N	Consider consistency when applying paint	Draw using a variety of tools and surfaces	backgrounds
continued	win	Colour within the line	(paint, chalk, pastel, pen and ink)	Work indoors and outdoors
	Dra	Draw on smaller and larger scales	Use a variety of brushes and experiment with ways of marking with them	Show total qualities using cross hatching, pointillism, sidestrokes, use of rubber to
ank		Begin to add detail to line drawings	Develop shadows	draw/highlight
Techniques			Use of tracing	
and .	olour	For instance:	For instance:	For instance:
		Recognise and name primary and secondary colours	Mix and match colours (create palettes to match images)	Build on previous work with colour by exploring intensity
Skills		Mix primary colours to make secondary colours	Lighten and darken tones using black and white	Introduce acrylic paint
	ih Cc	Share colour charts to compare variations of the	Begin to experiment with colour to create more	Develop watercolour techniques
	N N	same colour	abstract colour palettes (e.g. blues for leaves)	Explore using limited colour palettes
	Working With Colour	Create and experiment with shades of colour and name some of these	Experiment with watercolour, exploring intensity of colour to develop shades	Investigate working on canvas experiment with colour in creating an effect
		Recognise warm and cold colours  Create washes to form backgrounds	Explore complementary and opposing colours in creating patterns	Mark make with paint (dashes, blocks of colour, strokes, points)
		Explore the relationship between mood and colour		Develop fine brush strokes

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
		Finger print, sponge print, block print to form patterns, experiment with amounts of paint applied	Use roller and ink printing. Use simple block shapes formed by children	Create polystyrene printing blocks to use with roller and ink
		and develop control	Blend two colours when printing	Explore monoprinting (see below for artists)
	Printing	Develop controlled printing against outline /within cut out shapes	Using roller & inks, take prints from other objects (leaves, fabric, corrugated card) to show texture	Explore Intaglio (copper etching) using thick cardboard etched with sharp pencil point
	Pri	Use matchbox to print to explore possibilities - different sized matchboxes create different lines/	make string print, create low relief prints with string on cardboard and form repeated patterns,	Experiment with screen printing
pe		shapes/patterns	tessellations and overlays	Design and create motifs to be turned into printing block images
s and Techniques continued		Experiment with marbling, investigating how ink floats and changes with movement	Form string roller prints to create continuous patterns	Investigate techniques from paper printing to work on fabrics
	Sculpture	For instance:	For instance:	For instance:
		Develop understanding of 2D and 3D in terms of artwork - paintings/sculptures	Develop confidence working with clay adding greater detail and texture	Design and create sculpture, both small and large scale
		Investigate a range of different materials and experiment with how they can be connected together to form simple structures	Investigate ways of joining clay - scratch and slip Introduce 'modroc' Create work on a larger scale as a group Use pipe cleaners/wire to create sculptures of human forms	Make masks from a range of cultures and traditions, building a collage element into the sculptural process
Skills		Look at sculptures and try to recreate them using everyday objects/range of materials		Use objects around us to form sculptures Use wires to create malleable forms
		Begin to form own 3D pieces		Build upon wire to create forms which can then be
		Consider covering these with papier-mâché		padded out (e.g. with newspaper) and covered
		Investigate clay - pinching, rolling, twisting, scratching and coiling and add details and textures using tools		(e.g. with modroc)  Create human forms showing movement
		Look at sculptures by known artists and natural objects as starting points for own work		

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
		Develop collages, based on a simple drawing, using	Research embroidery designs from around the	Introduce fabric block printing
		papers and materials	world, create own designs based on these	Create tie dye pieces combining two colours
		Collect natural materials to create a temporary collage (an autumn tree/ the school building using	Sew simple stiches using a variety of threads and wool	Investigate ways of changing fabrics - sewing, ironing, cutting, tearing, creasing, knotting etc.
		sticks/rocks/leaves etc)	Investigate tie-dying	Weave using paintings as a stimulus / the natural
		Weave using recycled materials – paper, carrier bags	Create a collage using fabric as a base	world
ō		Investigate a range of textures through rubbings	Make felt	Experiment with circular embroidery frames
continued		Simple batik work	Develop individual and group collages, working on a range of scales	Create detailed designs which can be developed into batik pieces
sen	Collage	Develop tearing, cutting and layering paper to create different effects	Use a range of stimulus for collage work, trying to think of more abstract ways of showing views	
Techniques	and Co	Dye fabrics using tea, red cabbage, beetroot, onion, spinach		
and Te	Textile and	Weave with wool		
s ar	Ě			
Skills				

	Year 1/2	Year 3/4	Year 5/6
	Pupils should be taught:	Pupils should be taught:	
	about the work of a range of artists, craft makers and designers, describing the differences and similarities between different practices and disciplines, and making links to their own work	about great artists, architects and designers in	history
	For instance:  Describe the work of artwork of artists such as	For instance: Use the work of artists to replicate ideas or inspire own work e.g.	For instance: Use the work of artists to replicate ideas or inspire own work e.g.
ts	Jackson Pollock, Paul Klee, Kandinsky (colour) Georges Braque/Pablo Picasso (collage)	Look at the work of David Hockney e.g. photo montages (drawing)	Consider work by artists such as Cezanne, Derain, Van Gogh (colour)
Knowledge About Artists	Use work of artists such as Anthony Gormley, Louise Bourgeois, Jean Arp (sculpture) to create	Consider the work of artists e.g. Ruth Daniels, Mark Quinn, Carol Simms (colour)	Look at the style of Fauve artists Derain, Vlaminck and Braque
oni	own pieces	Look at the work of artists who formed geometric	Consider the work of Seurat (pointillism –colour)
ge Ab	Consider specific works such as Richard Long's 'Mud Hand Circle' (printing)	abstract paintings such as Malevich, Matisse and Mondrian	Look at the work of artists that used monoprinting include David Hockney, Tracey Emin, Picasso and
led 	Consider works from different cultures e.g. Chinese block prints	Introduce work by artists such as Marc Quinn, as well as sculptures from Aztec and Benin	Jim Dine (print)
Mo	BIOCK PHILES	civilizations (sculpture)	Consider work of Cornelia Parker (sculpture)
ᄌ		Consider the High Italian Renaissance period e.g.	Consider the work from other cultures e, g Asia
		Michelangelo, Leonardo da Vinci etc. (drawing)	Consider Georgia O Keiffe flowers showing use of
		Look at the patterns/ optical illusions created by OP artist Bridget Riley (colour)	line or William Morris detailed tiles - natural sources (colour)
		Abstract paintings by Picasso (colour)	Look at cubist artists such as Picasso, Duchamp to show movement/layering
		Use the work of artist Stacey Chapman "car" and other images on the internet (print)	Consider looking at Pop Art to represent popular objects from current culture (Andy Warhol)
		Look at work of Henry Moore (sculpture)	Artists such as Claude Lorrain, Poussin, Jan
	14	Consider work by contemporary textile artist Patricia Greaves (textiles).	Beaney and Annemeike Mein could be discussed as starting points.

	Year 1/2	Year 3/4	Year 5/6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	<ul> <li>understand what algorithms are; how they are implemented as programs on digital devices and that programs execute by following precise and unambiguous instructions</li> <li>create and debug simple programs</li> <li>use logical reasoning to predict the behaviour of simple programs</li> </ul>	<ul> <li>design write and debug programs that accomplish specific goals,solve problems by decomposing them in smaller parts</li> <li>use sequence, selection and repetition in programs</li> <li>use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</li> </ul>	<ul> <li>design, write and debug programs that accomplish specific goals; including controlling or simulating physical systems and solving problems by decomposing them into smaller parts</li> <li>use sequence, selection and repetition in programs; work with variables and various forms of input and output</li> <li>use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs</li> </ul>
ien	For instance:	For instance:	For instance:
Computer Science	Pupils learn to program a basic floor turtle such as a BeeBot to navigate increasingly complex routes and are able to debug their instructions when the turtle does not reach the intended destination  Pupils learn to program an onscreen app such as BeeBot	Pupils learn to use graphical programming language, such as Scratch or Logo to draw regular 2D shapes. Pupils add loops or procedures to create a repeating pattern	Pupils write a simple algorithm, for instance to create a basic traffic light sequence. They then use flowcharting software (such as Go or Flowgo) to create a simple program to control an onscreen
	or Kodable to complete a set task and are able to debug their instructions when the turtle does not reach the intended destination	Pupils learn to sequence instructions, for instance to create an animation using Scratch, or by using the timing features in PowerPoint	icon. They are able to explain how their program works  Pupils create a computer game, using a graphical
	Pupils use a more complex turtle with standard units to navigate increasingly complex routes, and are able to debug their instructions when the turtle does not reach the intended destination	Pupils write a simple algorithm, for instance to create a basic traffic light sequence. They then use flowcharting software (such as Go or Flowgo) to	language such as Scratch or Kodu  Extension – Pupils learn to use and program a raspberry pi to complete a basic task
	Extension - Pupils learn to use a simple graphical programming language such as Logo, Scratch or Turtle to navigate around the screen	create a simple program to control an onscreen icon  Extension - Pupils create a simple game using a  graphical language such as Kodu or Scratch	
	Extension - Pupils create a 3D environment, using a graphical language such as Kodu. They link this to a story such as an island adventure		

	Year 1/2	Year 3/4	Year 5/6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
<b>NCe</b> continued	recognise common uses of information technology beyond school	recognise common uses of information technology beyond school	understand computer networks including the internet; how they can provide multiple services, such as the world wide web, and the opportunities they offer for communication and collaboration
<u></u>	For instance:	For instance:	For instance:
Computer Science	Pupils learn about some of the uses of the internet	Pupils learn to collaborate electronically by blogging - mailing and working on shared documents using the pupil sites of the DLG	Pupils learn to collaborate electronically by blogging -mailing, and working on shared documents using the pupil sites of the DLG. This can be extended to working with other schools
			Pupils learn that connected devices exchange packets of data and this can convey a range of information from a text to a video call

	Year 1/2	Year 3/4	Year 5/6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content on the internet or other online technologies	Use technology safely, respectfully and responsibly; recognise acceptable/ unacceptable behaviour; identify a range of ways to report concerns about content and contact	use technology safely, respectfully and responsibly; recognise acceptable/ unacceptable behaviour; identify a range of ways to report concerns about content and contact
	For instance:	For instance:	For instance:
Digital Literacy	Pupils learn that the Internet is a great place to develop rewarding online relationships and learn to recognise websites that are good for them to visit; but they also learn to be cautious and to check with a trusted adult before sharing private information	Pupils learn that the Internet is a great place to develop rewarding online relationships and learn to recognise websites that are good for them to visit; but they also learn to be cautious and to check with a trusted adult before sharing private information	Pupils learn that the internet is a great place where online relationships can be developed. They compare and contrast online friends and real life, face to face friends and learn how to respond if an online friend asks them a personal question
	Pupils are introduced to the concept that real people send messages to one another on the Internet and learn how messages are sent and received. They recognise that it may be difficult to distinguish between someone who is real and someone who is	Pupils learn to make good passwords for their accounts, learn about spam and how to deal with it.  They begin to understand the implications for the information that they share online and how some	Pupils learn to create secure passwords for their accounts, learn about spam and how to deal with it, and decode website privacy policies, understanding the implications for the info that they share online Pupils explore their roles as digital citizens in an online
	not	websites might use that information without their knowledge	community, where they reflect on their responsibilities
	Pupils are introduced to the basics of online searching	Pupils are introduced to their roles as digital citizens in an online community, where they reflect on how they are responsible not only for themselves but for others, in order to create a safe and comfortable environment	and learn that good digital citizens are responsible and respectful in the digital world  Pupils begin to explore the nature of online audiences and permanency of information online. They begin to understand the significance of published information and personal information
	Pupils learn to explore websites and to say whether they like them or not and why		
		Pupils learn that the Internet is a public space and then develop the skills to protect their privacy and respect the privacy of others	Pupils understand what it means to be a good digital citizen as they interact with others online by understanding how to prevent and respond to cyberbullying. They also learn how to communicate effectively to prevent miscommunication in order to be a responsible member of a connected culture

	Year 1/2	Year 3/4	Year 5/6
		continued	continued
continued	introduced to the concept of calso learn how to communica	Pupils explore how they interact with others and are introduced to the concept of cyberbullying. They also learn how to communicate to be a responsible member of a connected culture effectively in order	Pupils begin to consider the impact of their online presence on their own self- image and the way others see them and explore how to construct a positive online profile
		use search technologies effectively,     appreciate how results are selected and ranked and be discerning in evaluating digital content  effectively in order to prevent miscommunication  use search technologies effectively, appreciate how results are selected and ranked and be discerning in evaluating digital content	Pupils learn the 'do's and don'ts' of copying and pasting information to avoid plagiarism. They learn how to avoid plagiarism by putting information in their own words, putting excerpted information into quotes, and providing citations. They learn to show respect for other people's creations by giving them credit
Digital Literacy 。		appreciate how results are selected and ranked and be discerning in evaluating digital	use search technologies effectively,     appreciate how results are selected and     ranked and be discerning in evaluating digital     content
gital		For instance:	For instance:
Diç		Pupils are introduced to the basics of online searching, including how to use effective keywords. They also learn to conduct searches that provide them with the most helpful and relevant information	Pupils explore issues relating to online searching, including how to use effective keywords, using directories and subject categories, and how to analyse the usefulness and relevancy of the results. They learn to conduct searches that provide them with the most helpful and relevant information
			Pupils develop skills for evaluating websites, online information and advertising by rating the trustworthiness and usefulness of websites, and learning to identify the different types of online advertising

	Year 1/2	Year 3/4	Year 5/6
	Pupils should be taught to:	Pupils should be taught to:	Pupils should be taught to:
	use technology purposefully to create, organise, store, manipulate and retrieve digital content	<ul> <li>select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information</li> </ul>	select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information
	For instance:	For instance:	For instance:
	<u>Digital Publishing:</u> Pupils learn to use basic word processing package and to write and illustrate a short story	<u>Digital Publishing:</u> Pupils learn how to use software to create an e-book, brochure or poster on a given subject	<u>Digital Publishing:</u> Pupils learn how to use software to create an e-book, brochure or poster on a given subject, incorporating a range of media
H	<u>Presentation:</u> Pupils learn to make simple presentations	<u>Presentations:</u> Pupils learn to write and deliver a presentation on a given subject	<u>Presentations:</u> Pupils learn to write and deliver a presentation, incorporating a range of media

	<u>Animations:</u> Pupils learn to make a simple animation for instance in Puppet Pals	Animations: Pupils learn now to develop a storyboard and then create a simple animation using for instance 'Puppet Pals' or 'Stop Motions'  Animation'  Sound and video: Pupils record and edit media to	incorporate it in a wider project  Animations: Pupils learn how to develop a
	Media: Pupils learn to use digital cameras and microphones for a purpose		storyboard and then create a simple animation using for instance Puppet pals' or 'Stop Motions Animation' - this may be extended by editing the
	<u>Working with data:</u> Pupils learn to create and use a pictogram		final product in using video editing software
	Modelling: Pupils explore online simulations such as Charlie Chimp	<u>Working with data:</u> Pupils learn to search, sort and graph information	Sound and video: Pupils record and edit media to create a short sequence - extended by editing the final product in using video editing software
			Working with data: Pupils learn to search, sort and graph information
			Modelling: Pupils learn how to use a spreadsheet to model data

		Year 1/2	Year 3/4	Year 5/6	
		<ul> <li>Pupils should be taught to:</li> <li>design purposeful, functional, appealing products for themselves and other users based on design criteria</li> <li>generate, develop, model and communicate their ideas through talking, drawing, templates, mock-ups and, where appropriate, information and communication technology</li> </ul>	products that are fit for purpose, aimed at parti generate, develop, model and communicate the	to: d develop design criteria to inform the design of innovative, functional, appealing fit for purpose, aimed at particular individuals or groups p, model and communicate their ideas through discussion, annotated sketches, and exploded diagrams, prototypes, pattern pieces and computer-aided design	
Design	Contexts, Uses and Purposes	For instance: State the purpose of the design and the intended user Explore materials, make templates and mock ups e.g. moving picture / lighthouse	For instance: Gather information about the needs and wants of particular individuals and groups Develop their own design criteria and use these to inform their ideas Research designs	For instance: Carry out research, using surveys, interviews, questionnaires and web-based resources Identify the needs, wants, preferences and values of particular individuals and groups Develop a simple design specification to guide their thinking Recognise when their products have to fulfil conflicting requirements	
	Ideas	For instance: Generate own ideas for design by drawing on own experiences or from reading	For instance: Share and clarify ideas through discussion Model their ideas using prototypes and pattern pieces Use annotated sketches, cross-sectional drawings and diagrams Use computer-aided design	For instance: Generate innovative ideas, drawing on research Make design decisions, taking account of constraints such as time, resources and cost Develop prototypes	

		Year 1/2	Year 3/4	Year 5/6
		Pupils should be taught to:  select from and use a range of tools and equipment to perform practical tasks [e.g. cutting, shaping, joining and finishing]  select from and use a wide range of materials and components, including construction materials, textiles and ingredients, according to their characteristic	joining and finishing], accurately	pment to perform practical tasks [e.g. cutting, shaping, components, including construction materials, textiles and and aesthetic qualities
Make		For instance: Select from a range of tools and equipment explaining their choices Select from a range of materials and components according to their characteristics	For instance:  Select tools and equipment suitable for the task  Explain their choice of tools and equipment in relation to th  Select materials and components suitable for the task  Explain their choice of materials and components according  Order the main stages of making  Produce detailed lists of tools, equipment and materials the	g to functional properties and aesthetic qualities
	al Skills and Techniques	For instance: Follow procedures for safety Use and make own templates Measure, mark out, cut out and shape materials and	For instance: Follow procedures for safety Use a wider range of materials and components, including mechanical components and electrical components	
		components Assemble, join and combine materials and components Use simple fixing materials e.g. temporary – paper clips tape and permanent – glue, staples Use finishing techniques, including those from art and design	Measure, mark out, cut and shape materials and components with some accuracy  Assemble, join and combine materials and components with some accuracy apply a range of finishing techniques, include those from art and design, with some accuracy	Accurately measure to nearest mm, mark out, cut and shape materials and components  Accurately assemble, join and combine materials/ components  Accurately apply a range of finishing techniques, including those from art and design  Use techniques that involve a number of steps  Demonstrate resourcefulness, e.g. make refinements

		Year 1/2	Year 3/4	Year 5/6
Evaluate	Own Ideas and Products	<ul> <li>Pupils should be taught to:         <ul> <li>explore and evaluate a range of existing products</li> <li>evaluate their ideas and products against design criteria</li> </ul> </li> <li>For instance:         <ul> <li>Talk about their design ideas and what they are making</li> </ul> </li> <li>Make simple judgements about their products and ideas against design criteria</li> <li>Suggest how their products could be improved</li> <li>Evaluating products and components used</li> </ul>	to improve their work	own design criteria and consider the views of others design and technology have helped shape the world and products s, to improve their work make
	Existing Products	For instance: Investigate - what products are, who they are for, how they are made and what materials are used	For instance:  Investigate - how well products have been designed, have been chosen, what methods of construction have products achieve their purposes and how well product investigate - who designed and made the products, where products were designed and made, when products were designed and made and whether products can be recycled or reused	ve been used, how well products work, how well
	Key Events/ Individuals		For instance Identify great designers and their work and use resea	arch of designers to influence work

		Year 1/2	Year 3/4	Year 5/6		
		Pupils should be taught to:	Pupils should be taught to:			
		<ul> <li>build structures, exploring how they can be made stronger, stiffer and more stable</li> <li>explore and use mechanisms [e.g. levers, sliders, wheels and axles], in their products</li> </ul>	apply their understanding of how to strengthen, stiffen and reinforce more complex structures			
			<ul> <li>understand and use mechanical systems in their products [for example, gears, pulleys, cams, levers and linkages]</li> </ul>			
			• understand and use electrical systems in their products [e.g. series circuits incorporating switches, bulbs, buzzers and motors]			
			apply their understanding of computing to program	ram, monitor and control their products		
		For instance:	For instance:			
ge		Understand about the simple working characteristics	Understand how to use learning from science and ma	aths to help design and make products that work		
led		of materials and components	Know that materials have both functional properties and aesthetic qualities			
MOI		Understand about the movement of simple mechanisms including levers, sliders (Year 1) wheels and axles (Year 2)	Know that materials can be combined and mixed to create more useful characteristics			
X	rk		Know that mechanical and electrical systems have an input, process and output			
<b>Technical Knowledge</b>	ts Wo	Understand that food ingredients should be combined according to their sensory characteristics	Use the correct technical vocabulary for the projects they are undertaking			
Tech	Products Work	Know the correct technical vocabulary for the	Understand how levers and linkages or pneumatic systems create movement	Understand how cams, pulleys and gears create movement		
	ng P	projects they are undertaking	Understand how simple electrical circuits and	Understand how more complex electrical circuits and		
	Making l	Understand how freestanding structures can be made stronger, stiffer and more stable	components can be used to create functional products	components can be used to create functional products		
	N		Understand how to program a computer to control their products	Understand how to program a computer to monitor changes in the environment / control their products		
			Know how to make strong, stiff shell structures	Know how to reinforce/strengthen a 3D framework		
			Know that a single fabric shape can be used to make a 3D textiles product	Know that a 3D textiles product can be made from a combination of fabric shapes		
			Know that food ingredients can be fresh, pre-cooked and processed	Know hat a recipe can be adapted a by adding or substituting one or more ingredients		
	)C 20					

		Year 1/2	Year 3/4	Year 5/6
		Pupils should be taught to:  use the basic principles of a healthy and varied diet to prepare dishes  understand where food comes from	Pupils should be taught to:  understand and apply the principles of a healthy and varied diet  prepare and cook a variety of predominantly savoury dishes using a range of cooking techniques  understand seasonality, and know where and how a variety of ingredients are grown, reared, cau and processed  For instance:  Know that food is grown (such as tomatoes, wheat and potatoes), reared (such as pigs, chickens and cattle) and caught (such as fish) in the UK, Europe and the wider world  Know that seasons may affect the food available  Understand how food is processed into ingredients that can be eaten or used in cooking  How to prepare and cook a variety of predominantly savoury dishes safely and hygienically including, where appropriate, the use of a heat source  How to use a range of techniques such as peeling, chopping, slicing, grating, mixing, spreading, kneading and baking	
Nutrition	Where Food Comes From	For instance: Know where food comes from		
<b>Cooking and Nutrition</b>	ation, Cooking and Nutrition	For instance:  Use appropriate equipment to weigh and measure ingredients  Prepare simple dishes safely and hygienically, without using a heat sources		
		Use techniques such as cutting  Name and sort foods into the five groups of the 'eat well' plate  Know that everyone should eat at least five portions of fruit and vegetables every day	Know that a healthy diet is made up from a variety and balance of different foods and drinks, as depicted in the 'eat well' plate  Know that to be active and healthy, food is needed to provide energy for the body  Measure using grams  Follow a recipe	Know that recipes can be adapted to change the appearance, taste, texture and aroma Know that different foods contain different substances - nutrients, water and fibre - that are needed for health Understand the need for correct storage Measure accurately Work out ratios in recipes

eac	Recognise and read known sounds	a dictionary	Retrieve information from a text	text
~~~	within words Read some key vocabulary	Read familiar words and join in with a non-fiction text / story	To make predictions based on existing knowledge	Read and understand the main points and some detail from a short written passage
			Read aloud to a partner or small group	Read aloud with confidence

# National Curriculum 2014: Progression in Languages

	Year 3	Year 4	Year 5	Year 6
Writing	For instance: Write some of the numbers to 20 from memory Experiment with writing simple words Copy accurately in writing some key words Copy or label using single words or short phrases	For instance: Write familiar words and simple phrases from a model Understand and write a short email using structures learnt	For instance: Write a simple poem Write short sentences in a presentation or booklet Write simple instructions accurately Write sentences on a range of topics using a model	For instance: Write sentences using some description Apply a range of linguistic knowledge to create simple, written pieces that can be understood Use dictionaries to support writing
Knowledge About Languages	For instance:  Understand and start to use some basic core structures	For instance:  Understand the main core structures and begin to use some actively.  Identify phonemes that are the same as or different from English or other languages they know	For instance: Use agreements of adjectives Manipulate language by changing an element in a sentence	For instance: Understand and use negatives Recognise patterns in the foreign language
Knowledge About the Culture of the Countries	For instance: Start to understand cultural similarities and differences and how festivals are celebrated Understand the differences in social conventions when people greet each other	For instance: Identify counties where selected language is spoken Investigate aspects of lifestyle in selected country e.g. food or leisure activities Investigate weather patterns of select country	For instance:  Look at further aspects of everyday lives from the perspective of someone from another country  Learn about places of interest/ importance within the county studied	For instance:  Present information about an aspect of culture  Compare and contrast countries where language is spoken with this country  Investigate famous people / events from the chosen country to be studied  Investigate cultural differences

		Year 1/2	Year 3/4	Year 5/6
		Pupils should be taught to:  use their voices expressively and creatively by singing songs and speaking chants and rhymes	Pupils should be taught to:  play and perform in solo and ensemble contex with increasing accuracy, fluency, control and a second contex of the contex with increasing accuracy.	ts, using their voices and playing musical instruments expression
ıg - Singing	Vocal Expression / Effects	For instance: Use their voices confidently to create sound effects Explore different types of voices Sing songs in different ways and discuss the effect	For instance: Use voices to create and control sounds (including tempo/speed-dynamics/volume and pitch)	For instance: Create different vocal effects when singing and rapping
Performing - Sir	Chants and Rhymes	For instance: Chant words expressively using known songs and rhymes Chant and clap in time with a steady pulse	For instance:  Keep in time with a steady pulse when chanting, singing or moving. Be aware of correct posture whilst singing/playing  Play singing games and clapping games  Sing/perform rhythmically straightforward parts (i.e. minims, crotchets, quavers in simple common meter)	For instance: Sing songs in unison and two parts Maintain their own part when singing songs written in two parts Sing songs written in different metres - tap the pulse on the strong beats

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
	ing	Listen to notes G - E played on chime bars. Use the tune found in playground songs e.g. 'I'm the King of the Castle', to find their singing voice and match pitches	Sing in tune in a group and alone Sing using a limited range of notes (i.e. middle C to D octave above)	Sing with control of pitch
continued	Pitching	Slide the voice upwards in pitch to a high voice and downwards in pitch to a low voice		
		Follow the shape of the melody when singing songs. (Use hand/arm to gesture)		
		For instance:	For instance:	For instance:
Singing		Sing songs while maintaining a steady beat: tapping/walking	Sing words/phrases of a song in their heads (thinking voice)	Sing/play with increased control, expression, fluency and confidence
- Si		Sing songs at different speeds	Sing with expression	Sing with clear diction, a sense of phrase and
Performing		Sing the same song in different ways: loud, quiet; fast, slow, and in various moods	Sing/play appropriate material confidently and fluently	musical expression  Control breathing, posture and sound projection.
forr		Use the 'thinking voice' - ie sing the words in their	Make improvements to singing - rehearse together	Breathe in agreed places to identify phrases.
Per	jing	head	to achieve objectives	Recognise structures in known songs (identify
	Singing	Play singing games in which children sing phrases alone	Use graphic notation to illustrate the shape and formation of melodies	repeated phrases)
		Sing songs expressively increasingly in tune within a limited pitch	Tormation of melodies	Sing a round in two parts - identify the melodic phrases and how they fit together
		Recognise phrase lengths and know when to breathe with an attention to posture		Use graphic/traditional/other notation to develop a deeper understanding of shape/form of melodies
		Use movements to show phrases		
		Perform each phrase in a different way		

		Year 1/2	Year 3/4	Year 5/6
	Instruments / nd Effects	Pupils should be taught to:  play tuned and un-tuned instruments musically  For instance:  Describe, name and group a variety of instruments	Pupils should be taught to:  • play and perform in solo and ensemble contexts, using their voices and playing musical instrume with increasing accuracy, fluency, control and expression  • use and understand staff and other musical notation  For instance:  Create and control sounds on instruments (including	
	Identify Instrur Sound Effe	Play instruments or use body percussion in different ways to create sound effects and follow directions to 'perform' a story together	tempo/speed-dynamics/volume and pitch) Select instruments and create sounds to describe visual images	
Performing - Playing	Control	For instance:  Handle and play a variety of tuned and un-tuned instruments with control  Sing a song they know well - one group taps the pulse on their thighs the other group taps the rhythm with two fingers on the palm of their hands  Add an instrument to play on the beat and one to play with the rhythm  The children mark the pulse of a song with stamps/ claps  Chant/sing, clap the rhythm of the song; transfer the rhythm onto an un-tuned instrument; use it to accompany the chanting  Count with a steady pulse  Contribute ideas and control sounds as part of a class composition and performance	For instance: Keep in time with a steady pulse when playing instruments Perform a repeated pattern to a steady pulse Maintain own part with awareness of how the different parts fit together to achieve an overall effect	For instance:  Play instruments with control and rhythmic accuracy  Perform a particular cyclic pattern i.e. rhythmic phrase structured, layered and repeated. SAMBA, STREET BAND or AFRICAN DRUMMING  Perform a round confidently using voices and instruments. Be aware of other parts when playing an independent part  Play simple chords in sequence  Demonstrate awareness of own contribution - leading others, taking a solo part and/or providing rhythmic support/accompaniment  Subdivide the pulse keeping to a steady beat. e.g. count in 4s - one part plays every beat (crotchets) another part plays every 2 beats (minims) holding each for 2 counts; another part plays every 4 beats (semi-breve) holding for 4 full beats

		Year 1/2	Year 3/4	Year 5/6
Performing - Playing continued	Notation	For instance: Follow a conductor and be the conductor themselves, responding to a range of gestures for: start/stop, slow/fast, loud/quiet Make a picture label for each group of instruments Play together, using symbols as a support Talk about and devise signs/gestures/symbols for the concepts: high/low, fast/slow, long/short. Make two flash cards, one for long and one for short sounds Perform long and short sounds in response to symbols Play and sing phrases from dot notation using 'pitch cards' - High/Middle/Low - Interpret the pattern on the card e.g. H-H-L or L-M-H or H-L-H		For instance: Perform significant parts from memory and from notations
Pe	Evaluating	For instance:  Evaluate own music and that of others  Discuss what was good  Suggest how it might be improved	For instance: Suggest and make improvements to work and that of others, commenting on the intended effect and how to achieve it Contribute to a class performance Rehearse together to achieve objectives Suggest Ideas and preparations for performances	For instance: Rehearse with others and help achieve a high quality performance showing an awareness of the audience Refine and improve their own and others' work in relation to the intended effect Perform with awareness of audience, venue and occasion

		Year 1/2	Year 3/4	Year 5/6
and Experimenting	Sounds	Pupils should be taught to:  • experiment with, create, select and combine sounds using the inter-related dimensions of music  For instance:  Explore different sounds using body percussion  Make various sound effects to describe selected/ thematic words  Suggest which instruments would make a particular sound  Select sounds and sound sources carefully in response to a story suggest what sounds could be added to depict ideas  Make own short sequence of sounds using symbols	Pupils should be taught to:	urposes using the inter-related dimensions of music
Improvising a	Explore and Make S	as a support  Make sounds and recognise how they can communicate ideas  Create and choose sounds in response to stimulus e.g. night-time, the seaside etc.  Suggest instruments that make sounds like those described by the selected words and create sound pictures  Children order sounds in response to the stimulus and make their own short sequence of sounds using symbols as a support  Create a sound story		

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
		Identify how sounds can be changed e.g. grip triangle to 'stop it from vibrating well and release it to enable a full, vibrating sound	Explore repeated patterns in music/art/dance Create repeated patterns and combine several	Devise more complex rhythmic patterns using semi-quavers and rests
		Identify the pulse and explore getting faster and slower	layers of sound with awareness of the combined effect	Improvise rhythmic patterns over a steady pulse with confidence
<b>~</b>		Experiment with different timbres (sound qualities)		Fit different rhythmic patterns together and maintain own part with awareness of the pulse
continued		Explore the concepts: loud/quiet, high/low, fast/slow		
	<u> </u>	Explore the effect of silence		
ting	pund	Experiment and change sounds		
Experimenting	Control and Change Sounds	Make instruction flash cards showing selected words or symbols and hold up to play from to help children remember the different sections of a composition		
and E	land	Experiment to improve the intended effect		
าg ลเ	ontro	Give the composition a title		
Improvising	S			
npro				
=				

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
		Begin to internalise and create rhythmic patterns	pentatonic scales (limited range of notes: DEGAB	Recognise combinations of pitched sounds -
		Use words/phrases (these could be from songs		concords and discords
		days of week/months of year) - tap them out		Identify and play CM diatonic Chords C-F-G-Am-Dm
	ies	Make up simple dance patterns – keeping in time with the pulse and including rhythms		Improvise - developing rhythmic and melodic material within given structures - when performing
	pole	Use voices to provide sound effects		
panu	<b>≥</b>	Create long and short sounds on instruments.		
g continued	Create Rhythms and Melodies	Find and play by ear, phrases of well-known songs on tuned instruments		
ntin	hyth	Make up three-note tunes independently		
Experimenting	Ite R	Record their own tunes - use colours instead of note		
eri	Crea	names		
EXE		Create songs of their own using high-middle-low pitches		
and				
isir				
Improvising				
			For instance:	For instance:
	Electronic		Use ICT/electronic devices, (microphones and recording equipment) to change and manipulate sounds	Use ICT / electronic devices, (microphones and recording equipment) to change and manipulate sounds
	Ψ			

	Year 1/2	Year 3/4	Year 5/6
	Teal 1/2	Pupils should be taught to:  improvise and compose music for a range of purpos  listen with attention to detail and recall sounds with i  use and understand staff and other musical notation  For instance:  Combine sounds to create textures  Create sequences of sound - musical structures which express ideas or moods using lyrics/sounds/movements-	es using the inter-related dimension of music ncreasing aural memory
Composing		actions  Compose sequences using notated rhythms  Join sequences together to create structures of rhythmic, descriptive or dance patterns  Select and sequence pitches (limited range) to create melodic phrases  Add words to melodic phrases to create a class/group song  Compose music in pairs - and small groups  Explore, choose, combine, organise and record musical ideas within musical structures  Use a variety of notations including 'graphic score' - pictograms etc.  Develop an ability to represent sounds and symbols in movement/words/with instruments	Internalise sounds, then select, combine and exploit a range of different sounds to compose a sound-scape stimulated by(topic)  Develop more complex rhythmic ideas  Devise rhythmic, melodic and harmonic accompaniments  Apply knowledge and understanding of how the combined musical elements of pitch, duration, dynamics, tempo, timbre, texture and silence can be organised within musical structures/forms and used to communicate different moods and effects  Compose music for different occasions using appropriate musical features and devices (melody, rhythms, chords and structures)  Use standard and additional methods of notation as appropriate across a range of different contexts.
		Use staff notation as a support  Look at the music and follow each part	Be aware of some of the basic major scales  Play from pitched notation (read music)  Show understanding of how music is produced in different ways and described through relevant established and invented notations

		Year 1/2	Year 3/4	Year 5/6
ng -		Pupils should be taught to:  Iisten with concentration and understanding to a range of high quality live and recorded music  For instance:	from great composers and musicians	h quality music drawn from different traditions and
Listening, Developing knowledge and Understanding	Listening	For instance:  Listen to short excerpts of music from a variety of styles, genres and traditions  Identify a variety of instruments that can be heard and describe sounds  Identify the pulse in different pieces of music  Tap knees in time with 'steady beat' music  Listen to different sounds in the environment  Recall short sequences / patterns of sounds  Sing a familiar song, identify then tap the rhythm of the words  Sing back melodic phrases from known songs  Listen to pieces of music that describe e.g. The Sea/  Fireworks etc  Describe different images created by music  Identify features e.g. Loud/quiet, fast/slow, high/low, pulse, rhythm, sound effects  Listen to a selection of music that has long (often slow) and short (often fast) sounds  Recognise long and short sounds and make longer and shorter sounds with their voices	For instance:  Listen with attention to detail and internalize and recall sounds with increasing aural memory  Learn new songs quickly; sing from memory  Identify rhythmic patterns, instruments and repetitions of sound/pattern  Internalise short melodies and play these on pitched instruments (play by ear)  Analyse and compare different sound qualities (TIMBRES) instrumental, vocal, environmental/natural, synthesised  Explain how sounds can create different intended effects  Recognise how the different musical elements are combined and used expressively	For instance: Identify musical features (scale, arpeggio, canon, drone, dynamics, ostinato, timbre) Analyse and comment on the effectiveness of how sounds, images and lyrics are used to create different moods Recognise different tempi — speeds of music Identify different meters — grouping of the beat — counting and feeling the pulse on the strong beat Describe the effect of different combinations of pitched notes using the terms tense-discord, relaxed -concord Appraise own work by comparing/contrasting with work of others Improve performance through listening, internalising and analysing

	Year 1/2	Year 3/4	Year 5/6
	For instance:	For instance:	For instance:
Knowledge and Understanding	Recall and perform rhythmic patterns to a steady pulse  Use instruments to copy back 4-beat rhythm patterns  Introduce the Xylophone or metallophone  Play 'High-middle-low': prepare two chime bars an octave apart, Introduce the middle note, G  Illustrate stories or nursery rhymes by playing up or down the notes at appropriate moments  Use movement and dance to reinforce the enjoyment of music and the sense of pulse  Respond to long and short sounds through movement - match actions to long and short sounds  Talk about high and low sounds in the environment and everyday life and imitate them with voices  Use hand position to reinforce high, middle, low  Sing back melodic phrases from known songs  Express thoughts and feelings about music and respond physically through simple demonstration, language, movement and other art forms, giving simple justifications of reasons for response	Identify descriptive features in art and music  Explore and explain their own ideas and feelings about music using movement, dance, expressive language and musical vocabulary  Evaluate how venue, occasion and purpose affects the way music is created performed and heard  Describe, compare and evaluate different kinds of music using an appropriate musical vocabulary  Develop an understanding of a wide range of live and recorded music from different styles, genres and traditions from a variety of composers and musicians	Listen with concentration and some engagement to longer pieces of instrumental and vocal music Explore and explain their own ideas and feelings about music using movement, dance, expressive language and musical vocabulary Identify how music reflects different intentions Identify how music reflects time and place  Show knowledge and understanding of how time and place can influence the way music is created, performed and heard.  Identify and explore musical device  Describe, compare and evaluate different kinds of music using an appropriate musical vocabulary e.g. pitch, tempo. timbre, lyrics  Develop a broad understanding of a wide range of live and recorded music from different styles, genres and traditions from a variety of composers and musicians

Year 1/2	Year 3/4	Year 5/6		
Pupils should be taught to:	Pupils should be taught to:			
master basic movements including running,	use running, jumping, throwing and catching in	use running, jumping, throwing and catching in isolation and in combination		
developing balance, agility and co-ordination, and begin to apply these in a range of activities		opriate [for example, badminton, basketball, cricket, and apply basic principles suitable for attacking and		
participate in team games, developing simple tactics for attacking and defending	develop flexibility, strength, technique, control gymnastics]	and balance [for example, through athletics and

patterns	take part in outdoor and adventurous activity c	hallenges both individually and within a team		
	compare their performance with previous ones personal best	and demonstrate improvement to achieve their		
		T		
For instance:	For instance:	For instance:		
Practise different skills associated with simple games (e.g. co-ordinating throwing and catching)	Practise skills in isolation and combination (e.g. throwing and catching with greater accuracy)	Develop techniques of a variety of skills to maximise team effectiveness		
Work co-operatively in teams	Work well as a team in competitive games  Apply basic principles of attacking and defending	Use the skills e.g. of throwing and catching to gain points in competitive games (fielding)		
		Use tactics when attacking or defending		
	-mates and opponents)	Apply rules of fair play to competitive games		
	Pupils should be taught to:  • master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities  • participate in team games, developing simple tactics for attacking and defending  • perform dances, using simple movement patterns  For instance:  Practise different skills associated with simple games (e.g. co-ordinating throwing and catching)	Pupils should be taught to:  • master basic movements including running, jumping, throwing and catching, as well as developing balance, agility and co-ordination, and begin to apply these in a range of activities  • participate in team games, developing simple tactics for attacking and defending  • perform dances, using simple movement patterns  • province:  Practise different skills associated with simple games (e.g. co-ordinating throwing and catching)  Work co-operatively in teams  Pupils should be taught to:  • use running, jumping, throwing and catching in play competitive games, modified where approfootball, hockey, netball, rounders and tennis], defending  • develop flexibility, strength, technique, control gymnastics]  • perform dances using a range of movement participate take part in outdoor and adventurous activity of compare their performance with previous ones personal best  For instance:  Practise different skills associated with simple games (e.g. co-ordinating throwing and catching)  Work co-operatively in teams  For instance:  Practise skills in isolation and combination (e.g. throwing and catching with greater accuracy)  Work well as a team in competitive games  Apply basic principles of attacking and defending  Develop an understanding of fair play (respect team)		

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
		Run for 1 minute	Run smoothly at different speeds	Sustain pace over longer distance – 2 minutes
		Show differences in running at speed and jogging	Choose different styles of running of different	Perform relay change-overs
		Use different techniques to meet challenges		Identify the main strengths of a performance of self
		Describe different ways of running	Pace and sustain their effort over longer distances	and others
	ng		Watch and describe specific aspects of running (e.g. what arms and legs are doing)	Identify parts of the performance that need to be improved
	Running		Recognise and record how the body works in different types of challenges over different distances	Perform a range of warm-up exercises specific to running for short and longer distances
			Carry out stretching and warm-up safely	Explain how warming up affects performance
			Set realistic targets of times to achieve over a short	Explain why athletics can help stamina and strength
tics			and longer distance (with guidance)	Set realistic targets for self, of times to achieve over a short and longer distance
Athletics				
		For instance:	For instance:	For instance:
		Perform the 5 basic jumps (2-2. 2-1, 1-2, 1-1 same foot, 1 to 1 landing on other foot)	Perform combinations of jumps e.g. hop, step, jump showing control and consistency	Demonstrate a range of jumps showing power and control and consistency at both take-off and landing
		Perform combinations of the above	Choose different styles of jumping	Set realistic targets for self, when jumping for
	Jumping	Show control at take-off and landing	Watch and describe specific aspects of jumping e.g.	distance or height
	Jum	Describe different ways of jumping	what arms and legs are doing	
		Explain what is successful or how to improve	Set realistic targets when jumping for distance for or height (with guidance)	

		Year 1/2	Year 3/4	Year 5/6
		For instance:	For instance:	For instance:
panı		Throw into targets  Perform a range of throwing actions e.g. rolling, underarm, overarm	Explore different styles of throwing, e.g. pulling, pushing and slinging (to prepare for javelin, shot and discus)	Throw with greater accuracy, control and efficiency of movement using pulling, pushing and slinging action with foam javelin, shot and discus
Athletics continued	Throwing	Describe different ways of throwing Explain what is successful or how to improve	Throw with greater control  Consistently hit a target with a range of implements  Watch and describe specific aspects of throwing (e.g. what arms and legs are doing)  Set realistic targets when throwing over an increasing distance and understand that some implements will travel further than others (guidance)	Organise small groups to SAFELY take turns when throwing and retrieving implements  Set realistic targets for self, when throwing over an increasing distance and understand that some implements will travel further than others
		For instance:	For instance:	For instance:
		Copy some moves  Develop control of movement using:  Actions (WHAT) – travel, stretch, twist, turn, jump  Space (WHERE) – forwards, backwards, sideways,	Create dance phrases/dances to communicate an idea  Develop movement using;  Actions (WHAT); travel, turn, gesture, jump, stillness	Create longer, challenging dance phrases/dances Select appropriate movement material to express ideas/thoughts/feelings Develop movement using;
		high, low, safely showing an awareness of others	Space (WHERE); formation, direction and levels	Actions (WHAT); travel, turn, gesture, jump, stillness
Dance	Compose	Relationships (WHO) – on own and with a partner by teaching each other 2 movements to create a dance with 4 actions	Relationships (WHO); whole group/duo/solo, unison/canon Dynamics (HOW); explore speed, energy	Space (WHERE); formation, direction, level, pathways Relationships (WHO); solo/duo/trio, unison/canon/ contrast
		Dynamics (HOW) – slowly, quickly, with appropriate expression	Choreographic devices; motif, motif development and repetition	Dynamics (HOW) explore speed, energy (e.g. heavy/light, flowing/sudden)
		Use own ideas to sequence dance Sequence and remember a short dance	Structure a dance phrase, connecting different ideas, showing a clear beginning, middle and end Link phrases to music	Choreographic devices; motif, motif development, repetition, retrograde (performing motifs in reverse)  Link phrases to music
			LITIK PRITASES TO MUSIC	LITIK PRITASES TO MUSIC

		Year 1/2	Year 3/4	Year 5/6	
		For instance:	For instance:	For instance:	
		Move spontaneously showing some control and co-ordination	Perform dance to an audience showing confidence Show co-ordination, control and strength (Technical	Perform dance to an audience showing confidence and clarity of actions	
		Move with confidence when walking, hopping, jumping, landing	Skills) Show focus, projection and musicality (Expressive	Show co-ordination, control, alignment, flow of energy and strength (Technical Skills)	
		Move with rhythm in the above actions	Skills)	Show focus, projection, sense of style and	
	u	Demonstrate good balance	Demonstrate different dance actions – travel, turn,	musicality (Expressive Skills)	
	Perform	Move in time with music	gesture, jump and stillness  Demonstrate dynamic qualities – speed, energy and	Demonstrate a wide range of dance actions – travel, turn, gesture, jump and stillness	
	Pe	Co-ordinate arm and leg actions (e.g. march and clap) Interact with a partner (e.g. holding hands, swapping	continuity  Demonstrate use of space – levels, directions, pathways and body shape	continuity   Demonstrate dynamic qualities – speed, energy and	Demonstrate dynamic qualities – speed, energy, continuity, rhythm
continued		places, meeting and parting)		Demonstrate use of space – levels, directions, pathways, size and body shape	
Dance			unison, canon, complementary & contrasting	Demonstrate different relationships – mirroring, unison, canon, complementary and contrasting, body part to body part and physical contact	
		For instance:	For instance:	For instance:	
	Э	Respond to own work and that of others when exploring ideas, feelings and preferences	Show an awareness of different dance styles and traditions	Show an awareness of different dance styles, traditions and aspects of their historical/social context	
	Appreciate	Recognise the changes in the body when dancing and how this can contribute to keeping healthy	Understand and use simple dance vocabulary  Understand why safety is important in the studio	Understand and use dance vocabulary	
	Appr		Compare and comment on their own and other's	Understand why safety is important in the studio	
			work -strengths and areas for improvement	Compare and evaluate their own and others' work	

		Year 1/2	Year 3/4	Year 5/6
	Sequencing	For instance: Perform gymnastic sequence with a balance, a travelling action, a jump and a roll Teach sequence to a partner and perform together	For instance:  Perform a gymnastic sequence with clear changes of speed, 3 different balances with 3 different ways of travelling  Work with a partner to create a sequence. From starting shape move together by e.g. travelling on hands and feet, rolling, jumping. Then move apart to finish	For instance:  Create a sequence of up to 8 elements: (e.g. a combination of asymmetrical shapes and balances and symmetrical rolling and jumping actions; changes of direction and level and show mirroring; and matching shapes and balances  Create a longer more complex sequence of up to 10 elements e.g. a combination of counter balance/counter tension, twisting/turning, travelling on hands and feet, as well as jumping and rolling
Gymnastics	Balance	For instance Stand and sit "like a gymnast"  Explore the 5 basic shapes: straight/tucked/star/ straddle/pike  Balance in these shapes on large body parts: back, front, side, bottom  Explore balance on front and back so that extended arms and legs are held off the floor (arch and dish shapes respectively)  Develop balance by showing good tension in the core and tension and extension in the arms and legs, hands and feet  Develop balance on front and back so that extended arms and legs are held off the floor (arch and dish shapes respectively)	For instance:  Explore and develop use of upper body strength taking weight on hands and feet – front support (press up position) and back support (opposite)  NB: ensure hands are always flat on floor and fingers point the same way as toes  Explore balancing on combinations of 1/2/3/4 "points" e.g. 2 hands and 1 foot, head and 2 hands in a tucked head stand  Balance on floor and apparatus exploring which body parts are the safest to use  Explore balancing with a partner: facing, beside, behind and on different levels  Move in and out of balance fluently	For instance:  Perform balances with control, showing good body tension  Mirror and match partner's balance i.e. making same shape on a different level or in a different place  Explore symmetrical and asymmetrical balances on own and with a partner  Explore and develop control in taking some/all of a partner's weight using counter balance (pushing against) and counter tension (pulling away from)  Perform a range of acrobatic balances with a partner on the floor and on different levels on apparatus  Perform group balances at the beginning, middle or end of a sequence. Consider how to move in and out of these balances with fluency and control

		Year 1/2	Year 3/4	Year 5/6
	Balance continued	continued:  Challenge balance and use of core strength by exploring and developing use of upper body strength taking weight on hands and feet – front support (press up position) and back support (opposite) NB: ensure hands are always flat on floor and fingers point the same way as toes		continued: Begin to take more weight on hands when progressing bunny hop into hand stand
Gymnastics continued	Travel	For instance:  Begin to travel on hands and feet (hands flat on floor and fully extend arms)  Monkey walk (bent legs and extended arms)  Caterpillar walk (hips raised so legs as well as arms can be fully extended. Keep hands still while walking feet towards hands, keep feet still while walking hands away from feet until in front support position)  Bunny hop (transfer weight to hands)	For instance:  Use a variety of rolling actions to travel on the floor and along apparatus  Travel with a partner; move away from and together on the floor and on apparatus  Travel at different speeds e.g. move slowly into a balance, travel quickly before jumping  Travel in different pathways on the floor and using apparatus, explore different entry and exit points other than travelling in a straight line on apparatus	For instance:  Travel sideways in a bunny hop and develop into cartwheeling action keeping knees tucked in and by placing one hand then the other on the floor  Increase the variety of pathways, levels and speeds at which you travel  Travel in time with a partner, move away from and back to a partner
	dmnC	For instance: Explore shape in the air when jumping and landing with control (e.g. star shape)	For instance:  Explore leaping forward in stag jump, taking off from one foot and landing on the other (on floor and along bench controlling take-off and landing)  Add a quarter or half turn into a jump before landing  Make a twisted shape in the air and control landing by keeping body upright throughout the twisting action	For instance:  Make symmetrical and asymmetrical shapes in the air  Jump along, over and off apparatus of varying height with control in the air and on landing

		Year 1/2	Year 3/4	Year 5/6
Gymnastics continued	Roll	For instance:  Continue to develop control in different rolls  Pencil roll – from back to front keeping body and limbs in straight shape  Egg roll – lie on side in tucked shape, holding knees tucked into chest roll onto back and onto other side. Repeat to build up core strength  Dish roll – with extended arms and legs off the floor, roll from dish to arch shape slowly and with control Begin forward roll (crouch in tucked shape, feet on floor, hands flat on floor in front. Keep hands and feet still, raise hips in the air to inverted 'V' position	For instance:  Continue to develop control in rolling actions on the floor, off and along apparatus or in time with a partner.  Combine the phases of earlier rolling actions to perform the full forward roll  Begin the backward roll	For instance:  Explore different starting and finishing positions when rolling e.g. forward roll from a straddle position on feet and end in a straddle position on floor or feet/begin a backward roll from standing in a straight position, ending in a straddle position on feet  Explore symmetry and asymmetry throughout the rolling actions
Swimming and	Water Safety	All schools must provide swimming instruction in either In particular, pupils should be taught to:  swim competently, confidently and proficiently use a range of strokes effectively (e.g. front crass) perform safe self-rescue in different water-base	over a distance of at least 25 metres awl, backstroke and breaststroke)	

		Year 1/2	Year 3/4	Year 5/6
St	Orientation	For instance:  Identify positions on simple maps and diagrams of familiar environments e.g. in relation to position of desk in plan of classroom  Use simple maps and diagrams to follow a trail	For instance: Orientate simple maps and plans Mark control points in correct position on map or plan Find way back to a base point	For instance:  Draw maps and plans and set trails for others to follow  Use the eight points of the compass to orientate  Plan an orienteering challenge
Outdoor and Adventurous Activities	Communication	For instance: Begin to work co-operatively with others Plan and share ideas	For instance: Co-operate and share roles within a group Listen to each other's ideas when planning a task and adapt Take responsibility for a role within the group Recognise that some outdoor adventurous activities can be dangerous Follow rules to keep self and others safe	For instance:  Plan and share roles within the group based on each other's strengths  Understand individuals' roles and responsibilities  Adapt roles or ideas if they are not working  Recognise and talk about the dangers of tasks  Recognise how to keep themselves and others safe
Out	Problem Solving	For instance: Discuss how to follow trails and solve problems Select appropriate equipment for the task	For instance: Select appropriate equipment/route/people to solve a problem successfully Choose effective strategies and change ideas if not working	For instance:  Plan strategies to solve problems/plan routes/follow trails/build shelters etc.  Implement and refine strategies

# Long Term Plans

# **YEAR 1 CURRICULUM MAP**

		Autumn – All About Me (S)	Spring – Where I Live (G)	Summer – Famous Folk (H)		
ng	Word reading	Phonic programme e.g. Letters and Sounds				
Reading	Comprehension	Texts include: poetry, key stories, traditional stories, fairy stories and nonfiction (NC p 21)				
	Transcription	Phonics / Spelling programme ( NC Appendix 1)				
Writing	Composition	Short narratives (NC p 24)				
	VGP	NC Appendix 2				
_	aking and ening	12 Statutory statements (NC p 17)

		Statutory subject in all year groups Curriculum must be based on Durha	m Agreed Syllabus 2012 for all maintained	l schools		

#### **Additional information relating to Computing**

#### Computing

Computer Science Understand Simple algorithms. Create simple programs e.g. (Beebot) – forward / backwards – use pictures of ourselves/ animals/plants

Digital Literacy SWGFL
http://www.digitalliteracy.org.uk/CurriculumOverview.aspx#yr1
Keeping safe online. Finding
ourselves sites safely

IT Sound – Use technology
purposely Using IPADS/Easispeaks
to record/ playback (talk about
me/retell stories)
Use cameras (Me) – looking at
family photos/old photos Graphics
– me/ my family. Beginnings of WP
– All about me Create/store/
retrieve

Computer Science – Use digital devices e.g. Beebot to program simple journeys - use map / photos of local area. Make sets of simple instructions – fd/bk left/right. Correct obvious errors (debug)

Digital Literacy Keeping personal information private. Look at local environment for common uses of ICT outside school

IT Use technology purposely - Simple branching database - materials
Cameras – take photos of local area
Add to simple photo story/IPhoto - record thoughts IPAD/Easispeak – playback /use in writing
Create/store/retrieve

ICT Use technology purposely –
nonfiction texts - George / animals. Use
photos from visit e.g. Shildon in WP /
book Book creator IPAD – WP software
on PC - Create/store/ retrieve Talk
about animals/famous person to
camera/video

#### **Digital Literacy**

Use technology safely - Real and fictional characters – what is real? Lee & Kim resources – animal masks.

Communicating with real people.

Who do we tell if concerned? Teacher led email – for a purpose e.g. arrange a

**Computer Science** - iPad apps writing precise and unambiguous instructions. – Daisy the dinosaur/Kodables/Beebot app

#### Computing

Computer Science -Solve problems by decomposing them into smaller parts; Use logical reasoning to detect and correct errors in algorithms

Design and create a simple rainforest game in for example Kodu e.g. planting trees v excavators

#### IT -

Combine a variety of software to accomplish given goals and Select, use, combine software create an animation or video about the threats to the rainforest using websites evaluated for bias. Write a news report on creating a survival structure (Print/Audio/Video) Design a website to promote understanding of rainforest

Digital Literacy -Appreciate how search results are ranked find and evaluate websites for bias used to search for info on Rainforests **Computer Science -**

#### IT -

Use and combine software on a range of digital devices. Use a device to record a non-reversible reaction and create an "encyclopedia" entry about it. Plan, Produce and Edit a short instructional video on how to bake bread. Design and create systems Create a spreadsheet model to calculate quantities for bread recipes

Digital Literacy -Be discerning in evaluating digital content Talking safely online, What is cyberbullying? (SWGfL) Computer Science Use selection in programs; Work with variables; Use logical reasoning to explain how some simple algorithms work; Design a racing game in Scratch/Kodu that includes a scoring system. Print out code and annotate

#### IT -

Analyse & Evaluate data Use an online Olympic database to research an athlete. Use to create Wikipedia type report. Select, use and combine software use photo editing software or pixlr to create digital pop art image. Understand the opportunities computer networks offer for collaboration Construct questionnaire in google forms about sports they play. Complete then analyze results to produce a report for governors include graphs/charts/tables

Digital Literacy Be discerning in evaluating digital
content Selling Stereotypes – how
images are manipulated. Privacy Rules –
what information should you share
Super Digital Citizen (SWGfL)

# Long Term Plans

# **YEAR 1 CURRICULUM MAP**

		Autumn – All About Me (S)	Spring – Where I Live (G)	Summer – Famous Folk (H)	
ng	Word reading	Phonic programme e.g. Letters and Sounds			
Reading	Comprehension	Texts include: poetry, key stories, tr	aditional stories, fairy stories and nonfict	ion (NC p 21)	
	Transcription	Phonics / Spelling programme ( NC Appendix 1)			
Writing	Composition	Short narratives (NC p 24)			
	VGP	NC Appendix 2			
_	aking and ening	12 Statutory statements (NC p 17)			
Mat		Number and Place Value, Addition a	nd Subtraction, Multiplication and Divisio	n, Fractions, Measures, Geometry:	
		properties of shape, Geometry: posi	tion, direction and motion		
Scie	ence	Seasonal changes - across the four se	easons/weather		
		Plants - identification	Everyday Materials	Plants - structure	
		Animals Including humans - parts of the body	Animals Including humans	Everyday Materials	
		Working scientifically - on going acro	oss the year

R.E.		What can we learn about Christianity from visiting a church? Why are gifts given at Christmas?	Why is Jesus special to Christians? What is the Easter story?	What can we find out about Buddha?	
		Statutory subject in all year groups Curriculum must be based on Durha	m Agreed Syllabus 2012 for all maintained	l schools	

#### Computing

Computer Science Understand Simple algorithms. Create simple programs e.g. (Beebot) – forward / backwards – use pictures of ourselves/ animals/plants

Digital Literacy SWGFL
http://www.digitalliteracy.org.uk/CurriculumOverview.aspx#yr1
Keeping safe online. Finding
ourselves sites safely

IT Sound – Use technology
purposely Using IPADS/Easispeaks
to record/ playback (talk about
me/retell stories)
Use cameras (Me) – looking at
family photos/old photos Graphics
– me/ my family. Beginnings of WP
– All about me Create/store/
retrieve

Computer Science – Use digital devices e.g. Beebot to program simple journeys - use map / photos of local area. Make sets of simple instructions – fd/bk left/right. Correct obvious errors (debug)

Digital Literacy Keeping personal information private. Look at local environment for common uses of ICT outside school

IT Use technology purposely - Simple branching database - materials
Cameras – take photos of local area
Add to simple photo story/IPhoto - record thoughts IPAD/Easispeak – playback /use in writing
Create/store/retrieve

ICT Use technology purposely –
nonfiction texts - George / animals. Use
photos from visit e.g. Shildon in WP /
book Book creator IPAD – WP software
on PC - Create/store/ retrieve Talk
about animals/famous person to
camera/video

#### **Digital Literacy**

Use technology safely - Real and fictional characters – what is real? Lee & Kim resources – animal masks.

Communicating with real people.

Who do we tell if concerned? Teacher led email – for a purpose e.g. arrange a

**Computer Science** - iPad apps writing precise and unambiguous instructions. – Daisy the dinosaur/Kodables/Beebot app

# **YEAR 2 CURRICULUM MAP**

		Statutory subject in all year groups		

#### Computing

Computer Science - Understand that algorithms are implemented as programs on digital devices- send Beebot to match animal cards/identify families of animals /make routes using precise instructions - animals/ weather symbols/ oceans continents – using sets of arrow cards to make instructions Debug simple programs – did it reach the right place? Use of Probot for more complex instructions and programs

#### **Digital Literacy SWGFL**

Staying safe online - choosing appropriate websites. Leaving a digital trail/footprint

**IT Database** Branching database/database sorting and identifying animals

Computer Science - Understand that algorithms are implemented as programs on digital devices — use of programming IPAD apps - Catos Hike Hopscotch ALEX- Using direction / map symbols (G) — treasure map

**Digital Literacy** – Cyberbullying – using technology respectfully. Effective searching

IT - Use technology purposely to organize & manipulate digital content Database of solids / liquids and gases. Publisher/WP Advert for a job as an explorer/astronaut/- poster to advertise job. Hot seating as e.g. Christopher Columbus/Neil Armstrong – use easispeaks to prepare – video to record

Computer Science – Use logical reasoning to predict the behavior of simple programs – use food chain pictures/geographical features/holiday pictures – predict sets of instructions – did it reach the correct place? If not debug. Use of Probot for more complex instructions and programs

Digital Literacy
Use technology safely - Hectors
World safety button – who to tell?

ICT - Use technology purposely to manipulate digital content WP – nonfiction texts / posters / information leaflets - habitats publisher/PowerPoint/

photo story - physical geography/ living memories

#### Computing

Computer Science – Write programs that accomplish specific goals. Use iPad apps (ALEX, Lightwood - (higher levels) or websites <a href="Learn.code.org/hoc/1">Learn.code.org/hoc/1</a> to learn about programs and sequencing

IT -Create comic strip (Strip Designer app) Books (Creative Book Builder app). Rewrite stories/ character descriptions. Morfo app – as character from story. Design book covers

**Digital Literacy** - Powerful passwords/storing safely. Communicating online safely and responsibly

 IT – use a variety of software packages to complete a project on Me and My
 UK. Collect information, identify key elements and present findings

Opportunity to use drawing packages, image editing, draw graphs or tables in spreadsheet, presentation software.

Digital Literacy - product websites that encourage us to buy. Advertising.

http://www.childnetint.org/kia/primary/smartadventure/de

Who should you tell? Reporting concerns

# Computer Science – work with various forms of input/output

Turtle/probot/scratch onscreen turtle — use to draw some shape
Turtle on screen software e.g. Textease — routes between Egyptian pictures — record program. Draw shapes in onscreen turtle/letters/ pictures e.g. a house

IT – Effective searching when making leaflet/museum guide/catalogue of artefacts/newspaper article e.g.
Tutankhamen' tomb/a guide to mummification for beginners. Interview a tomb builder. Compose Egyptian music. Photograph artefacts. Egyptian adventure programs. Presentation on an aspect of ancient Egypt

**Digital Literacy -** showing respect online Writing good emails - thank you to museum for visit

#### **Computing**

Computer Science - Design programs that accomplish specific goals. Design and create programs. Debug programs that accomplish specific goals. Use repetition in programs. Use logical reasoning to detect and correct errors in programs Use Scratch to create an animation, linked to sport/literacy

IT - Collect data analyse and evaluate information, select a variety of software to accomplish given goals Survey on Health/Fitness. Take photos of what they are doing re health and fitness. Create promotional materials to advertise health/fitness/new gym opening in the area. Make a fitness video/TV advert to promote fitness

Understand opportunities that computer networks offer for communication Class blog about their health and fitness topic, (kidblog.org). Collate results and produce graphs to show findings. Put graphs, photos and findings into movie/presentation/ebook

Digital Literacy - Identify a range of ways to report concerns about content.

SWGFL Rings of Responsibility. New Class – Netiquette. Personal & Private Information

Computer Science - Use repetition in programs. Scratch – produce game with reference to Roman topic. Include repetition and loops. Turtle – create/design simple patterns using procedures

IT - Presentation to an audience of an aspect of Roman life. Create a menu for a Roman

banquethttp://cookit.e2bn.org/historycookbook/ Create a cookbook of recipes. Interview with a Roman God/character – IPADs/Morpho – record what they might say

Digital Literacy - Recognise unacceptable/unacceptable behaviour SWGFL The Power of Words - Bullying Computer Science - Control or simulate physical systems. Use Flowol/Go or other flowcharting software to create control software to model an object e.g. lighthouse/ traffic lights

IT - Select a variety of software to accomplish given goals, elect, use and combine internet services.

Research the local area to produce a website/e-book or brochure for tourists explain the attractions of their area/region

Digital Literacy -Understand how computer networks can provide multiple services, such as the World Wide Web and appreciate how search results are selected

SWGFL Keywords – Learning to search (For information on the NE), Whose is it, Anyway – Plagiarism

D.T.		Structure - make a shelter to survive in the rain forest – bush	Cooking and nutrition	Mechanism – make a moving cam model to show a sporting hero		
Art a	nd Design	craft activity  Printing - fossils  Drawing - observational drawings and develop section details	<b>Textiles</b> –record an event using fabric as a media	Painting & printing - pop art subject based on sporting hero Sculpture – South American art		
		Create sketchbooks to record obser	rvations			
Musi	С	Rainforest descriptive sound effects and rhythms - ensemble percussion – children lead. conservation songs	Tuned instruments: chords – cycle of 5ths structures e.g tonic/dominant/ subdominant /tonic	Rhythmic reflections – performance creating music for a ceremony/leavers' assembly		
		Music Education Hub: First Access P (Durham Music Service)	rogramme Delivery – Integration with curric	culum teaching – continuation – impact.		
MFL		Our World (QCA Unit 20) Describing geographical features Describing position of features Reinforce the weather (present and future) Use the superlative Present the months	The Café (QCA Unit 21) Saying and understanding prices (reinforce numbers) Buying food and drink in a café	The Past and the Present (QCA Unit 22) Describing places Comparing past and present Saying how much or many things there are		
P.E.		Games & Gymnastics Games & Dance	Dance & Gymnastics Games & Gymnastics	Games & Gymnastics Athletics		
R.E.		What do people use ritual in their lives? What do the gospels tell us about the birth of Jesus?	What is religion? What concepts do religions have in common? Why are Good Friday and Easter Day the most important days for Christians?	So, what do we now know about Christianity? (exploration through the concepts)		
		Statutory subject in all year groups Curriculum must be based on Durha	am Agreed Syllabus 2012 for all maintained	l schools		

#### Computing

Computer Science -Solve problems by decomposing them into smaller parts; Use logical reasoning to detect and correct errors in algorithms

Design and create a simple rainforest game in for example Kodu e.g. planting trees v excavators

#### IT -

Combine a variety of software to accomplish given goals and Select, use, combine software create an animation or video about the threats to the rainforest using websites evaluated for bias. Write a news report on creating a survival structure (Print/Audio/Video) Design a website to promote understanding of rainforest

Digital Literacy -Appreciate how search results are ranked find and evaluate websites for bias used to search for info on Rainforests **Computer Science -**

#### IT -

Use and combine software on a range of digital devices. Use a device to record a non-reversible reaction and create an "encyclopedia" entry about it. Plan, Produce and Edit a short instructional video on how to bake bread. Design and create systems Create a spreadsheet model to calculate quantities for bread recipes

Digital Literacy -Be discerning in evaluating digital content Talking safely online, What is cyberbullying? (SWGfL) Computer Science Use selection in programs; Work with variables; Use logical reasoning to explain how some simple algorithms work; Design a racing game in Scratch/Kodu that includes a scoring system. Print out code and annotate

#### IT -

Analyse & Evaluate data Use an online Olympic database to research an athlete. Use to create Wikipedia type report. Select, use and combine software use photo editing software or pixlr to create digital pop art image. Understand the opportunities computer networks offer for collaboration Construct questionnaire in google forms about sports they play. Complete then analyze results to produce a report for governors include graphs/charts/tables

Digital Literacy Be discerning in evaluating digital
content Selling Stereotypes – how
images are manipulated. Privacy Rules –
what information should you share
Super Digital Citizen (SWGfL)
