

Wednesday 23rd November 2022

Learning challenge: To write with purpose in context of a report.

Success criteria: I can include:

	Pupil	Teacher
subordinate clauses which are punctuated accurately.		
parenthesis use.		
detailed and cohesive paragraphs.		
punctuated accurately.		

A visit to Centre of Life Museum

On Monday 21st November 2022, Class 5 (Hi-fives) and Class 6 visited the Centre of Life Museum (in Newcastle). The weather was fabulous so we got the chance to skate on ice! ✓

Eventually, we arrived everyone started to put the ice skating shoes - well whatever its called - and courageously stepped onto the slippery ice, some didn't dare, but I somehow went on the ice skating rink, even though I was a bit frightened, some even were brave enough to slide like penguins! ✓✓

When skating was finally over, we ventured back into the museum and went into the Brain Zone, everyone's favorite part was the toilet (I thought that it was a bit disgusting) we could drink from it but I didn't. We saw a real brain! it was in this human tube,

slap

it showed us + what was really in our head! Later on, we entered into the creativity room zone, my favourite part was to make music with music discs - not everyone knew. We also got to dress up and take pictures! But the sad thing is that the picture wouldn't stay there. ✓✓

Later on, we stepped into the theatre which a staff told us a story of the fire job (which I thought was very interesting) we also learnt that gases and metals could make different, beautiful colours. She (staff) told us that gun powder could make fire work and sparklers, the UV lights could make our teeth glow! Next, we entered the Planetarium, when it started we saw constellations like Orion's belt and Cancer the crab, stars that we learnt was Betelgeuse and Rigel, Betelgeuse was big because it was about to end its life (super nova) ✓ Rigel the thing that amazed me was that it could join two stars together! ✓

The next thing, was very boring (lunch) so I will just move on to space zone, we could smell from this smell thing, and we saw how to sleep in space, in the corner
