How can we stop global warming?

# How can we stop global warming?

Eat less meat  
Eat more vegetables

Have a limit of cows up to 50

Give them a healthy diet

The Government would  
Give a healthy diet  
Stop making palm oil  
Burn steam engines using coal  
less cars  
Paper straws

- The world would  
Ban the number of cows.
- Restrict land used for palm oil.
- Stop mining
- Different energy types
- Recycle
