

How to stop GLOBAL WARMING

Pollution from cars and factories

I could eat less meat and eat more vegetables

Reducing Methane

Government: They could restrict restaurants

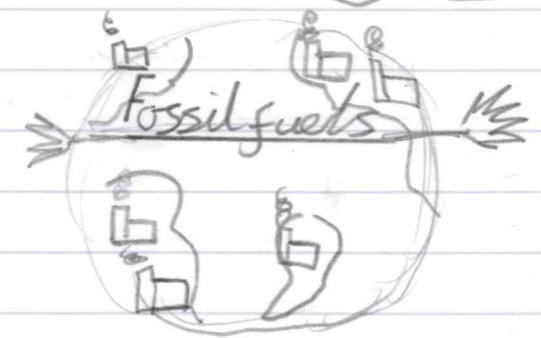

- Eat more vegetables rather than meat
- Give cows seaweed instead of grass
- Less restaurant (e.g. Burger King)

- Restrict the land used for palm oil.
- Use less palm oil.
- Close shops making palm oil.

Government: They could stop importing palm oil

I could buy less palm oil.

Government: ban steam engines.

I could use less fireplaces.

- Use electric cars
- Stop mining
- Use less electric
