Online Wellbeing

The safeguarding and wellbeing of our children is of upmost importance. As part of our safeguarding duty, throughout the year we will be signposting parents to useful web links and documents linked to online safety and wellbeing. Hopefully you will find these useful and informative. If you ever require

more support in ensuring your child is safe online, please don't hesitate to get in touch. Please use the following link to find out more about how you can support your child's online wellbeing including tips for managing wellbeing online and 'Positively Online' six top tips to help your child feel good about how they use the internet. Absolute Trash Team Event

This half term our team event is going to be a recycling fashion challenge – ‘Absolute Trash’, each team will be working to create fashion items out of ‘junk’ materials. We would be grateful if parents would keep recyclable materials e.g. plastic carrier bags, food boxes, milk container tops, kitchen roll tubes etc. and send them into school before **Monday 23rd October** so that the children can utilise them for their challenge.

Arbor App For Parents

Back in March, we moved over to a new information management system called Arbor. This is where we hold information about our pupils such as contact information, addresses, attendance etc. Eventually this system will be used instead of Teachers2Parents for our communication (emails and texts) and instead of ParentPay for payments to school. As a starting point, when the app goes live, hopefully in the next half term, we would

like parents and carers to download the app and become familiar with it. We will hold sessions in school to support you in this, providing you with more information about how to use it and how it might be useful to you. Watch this space for more information!
